

“It’s better to burn out than to fade away.”

SUJIT CHAUHAN

Humanities & Social Science
ISCP

If you could pack up a bunch of things from the institute to keep with you forever, what will those be?

The memories made in the HSS terrace, with the wind whispering and 'Topsy' lurking around.

Madhuri Pal : A memorable partnership started from field trip and continued till fieldwork in SoBo and Hiranandani and hope to go further. You have been very strong to bear my anger and still came to ask my well-being. I am really indebted to your kind act and grateful for being my saviour in final semester and treating me in H-18 Mess, Tansa. Yeah I have never been attentive to your so called philosophical talks, I even used to laugh secretly. But yes, you can still trust me like a TREE, nothing goes beyond me. Your self-made personality is highly appreciative. You are more worthy than a friend. Wish you all the best in your future endeavours. Your field partner.
