Ramakanta Behera : Ankan bro, i thing the whole m.tech life goes with arguments and finally ended with a nice outcome. Your views and mine were completely different, how I dont know. But i know those days with you were productive days, i thought myself to be good at microsoft, but later found that you r best in it, not only in it, but also in many things, you r a true presenter bhai, ur presentation skills inspired me a lot, Keep us updated with all new things. Thanks for being a valuable part of iit life. I wish we could have enjoyed few more trips, But this corona played its role. Chalo tum toh paas me hi ho... shadi.me bulana..🤔

Mayank Bansal : Bhai, you are also the first and one of the greatest person I met in IITB, when you came to hostel with all your luggage I wondered what could be there in these many bags 🤔. But, I had a great time being with you, and I learnt that having a third language helps very much when talking to girlfriends 😊. Second year mein utna connect nhi reh paye, and I regret that. I'll always remember our common course and the course project, you are such a brilliant PPT designer and orator. Rhi baat pizza share krne ki to abb jbb bhi jaha bhi milenge tbb sbse phle yhi krenge (that half and half pizza will work 😊), Or humare room ka rank zindabaad 🙌. PS: Shadi mein zaroor bulana 😊

Ajay Kumar Agrawal : The most creative mind of our CTaM...creative mind with knowledge of creative softwares...the deadly combination...tum jis level ki baaten karte the..hum me se kisi k samajh me nii aati thin...aur ab bhi nii aatin kabhi kabhi...Venkat sir ka intejaar hum dono ne mil k liye h baar baar...208 was our common place...will nevel forget those intellectual discussions with u and abhishek sir...tumhari PPT ka koi jawab nii..shayad profs k pass koi sawal bhi nii tha unme :) :)...ab aage Yogesh ko tumhe AECOM k level tak leke jaana h agle ek saal me kyunki uske baad tum kahan jaaoge ye yogesh ko bhi nii pata hoga..all the best bro..have a wonderful life ahead...

Tejaswini Satya Chinthagunti : Ankan alias Onkan! The guy who made me believe in the unbelievable by achieving 10 pointer in first semester 😂. All my IIT life I kept waiting for the day when I'll fully understand your PPT. Those arrows, cars, symbols coming from all directions along with your high level thinking + research stuff used to blow my mind. 😂 I too had a share of heartfelt conversations, laughs, joyful times with you. I'm happy you remember 'this is not life' line of mine. Hope it helps you in future 😊. I'll surely miss this your encyclopaedic mind to ask doubts from now. Hope you get a foreign PhD so that I can come and do a PhD under you. 😂 All the best Onkan. 'May the force be with you' 🙏
