Riya Singh : Lab-mates in numerous labs and most of labs were time-pass mostly. No wonder we have played "kaua-ud, tota-ud" in manufacturing lab. Suffering from jokes of Amar was another thing. You are a very friendly person and having you as a lab-mate was surely a wonderful experience.

Ganesh Chelluboyina : Hey roomie! I still remember that second day in insti. We had scaled the top of Sameer Hill only for it to begin pouring torrentially. We were the only ones there that day and with some difficulty, we made it back together, fully drenched in mud. And that's how our journey began as roommates. Your presence was a constant through thick and thin. How can I ever forget the many chats we used to have way past midnight? The last minute mugging up of tutorial solutions? We were so different, yet there was never a shortage of things to discuss. It still intrigues me to this day how you could watch Netflix the whole semester and still manage good grades haha! Keep up the high spirits, stay in touch!

Arpit Kedia : If I had to choose someone cool in the group, you would at the top of the list. Your witty statuses, your pop-culture knowledge, the artist Rupesh, gosh you don't know how cool you seemed to us nerds! So soft-spoken, you had my respect from day one. I regret not taking a trip together, but I'll always cherish our frisbee time. All the best!

Anupradiksha Rajan : Labs me apun Riya ke vajah se saath me aa Gaye...Lekin vo labs kafi memorable the...kyunki baki koi bhi labs me itna maza nahi aata tha. Aur apna mems kacourse project me tune infi kaam Kiya tha 😊, Aage aisa kabhi koi group project me mat karna. Aur lectures me kabhi kabhi chala Jana achha hota hai 😊

Hiranyagarbh Narale : Hey Rupzzzz! We met during the video making session at IDC studio...but I got to know you during MI. We four had a lot of fun organizing FA competitions! It was great😄! Road trip toh humesha yaad rahega😄! You're one of the coolest and smartest person I've met with a good heart! The speed with which you read books and finish tv series...My God! Fast replies♥! We even had a discussion on it😄. Keep sketching and painting! Stay the same! And we'll meet and party, once this is over ♥!

Animesh Singh : Bro... Your calm demeanor is something that is beyond science. No matter what you are one of the coolest person. Excellent creativity and artistic abilities. Goa trip and playing ultimate are some of the most memorable part of my insti life and you were there in both as a friend and as a companion. Though the final sem went by with everyone lazying around :P, I think that my college days were satisfying. All the best for your future endeavors. May the force be with you

Vedarth Choksi : Rupesh! The most chill guy I have met. I haven't seen you fret over anything. The best memory I have together is watching the sunset on the last day of the Goa trip with your Spotify playlist in the background. Also fighting with other people so we could reach there in the nick of the time 😄. I also remember meeting you just before your pwc interview! You're super friendly and creative. You are also the reason we got so many good photos during the Goa trip. Stay in touch!

Pattisapu Divya : Sometimes when you talk, I realize that you're way too cool for our group. You're always reading good books and always up-to-date with all series. But then, when you describe your village and the events of your day, it seems like it's all straight out of a standup comedy script. No offense, it's just the way you describe it. Pursue the career someday, will you? Our squad will miss you!

Vellala Naga Sasanka : Rupa! The most realistic person I know. You are my cinema god. Enni cinemalu chusam, enni McDonald fries tinnam. Nee realism, ne philosophies inka clarity ki na salute. Whenever I think of my time in IIT i will think of you. I have to, cinemalu chudatam neetho discuss cheyyadam. I loved to that. Mana Nashik trip inka train journeys back to home inka enno memorable talks. Remember me! You will go far in life. Stay in touch:)

Rohit Banavath : Such a narcissistic bliss you are. have fun. all the best. and stop smiling so creepily damn it!

Naveen Kumar Yalal : "Rey mama! etlunnav, ekkaduntunnav, asalu unnava ledolu teliyatledu ikkada?" Well that's me now, whenever I see you 'rare species'. You are a very interesting person, there's some mystery behind all the sarcastic comments you make, yeah! my stupid ass ain't gonna get it(yet?). "baa.., shhh...! aapu ra" that's you always, my jokes always make you feel creepy about 'em I can't say that'll get any better. Third yr nunchi Labs and H2 lo kanipicche vaadivi ante, entaina TV series and movies need your attention for sure. The best thing about a conversation with you is that you are down to earth person and take things at a pinch(or less) of seriousness(not all), it's always fun to talk to you ra!

All the Best, will stay in touch.

Aashish Prateek : Eyyy! What can I say dude? We were never the ones to pay attention in class. I remember your doodles dude. We would just keep discussing random things until the class was over. You were also the first person I met on the day of orientation. I remember the one crazy time when we went to Andheri to get some burgers with my friend Feba😂 and also the time when we went halfway to vihar lake and had to return because it was swampy that time. That sure was fun! Will definitely miss those times! Let's keep in touch and hopefully get to do more crazy stuff if life permits

Dornam Jashwanth : We met during BBC groundwork, Time we spent in talking over some random topics in mess especially about movies😂, coolest person! I had a lot of a great time with you💙

Ahsan Aslam : Cool voice,cool specs,cool hobbies,cool attitude...everything is cool about you.Even your laugh.There is quite a charm in the way you talk.Even you were really quiet in the first year,during all the mafia games except for the laughs,and you call me quiet!What I really admire about you is your individuality which is quite rare.I don't think anything can sway you away from that and I hope not.Never change bro.As for Stanley Kubrick, you would have stumbled upon it eventually.I just happened to be in the way.But I will keep in touch..at least to traumatize you from movies like that.
