Priya Kumar : Rahul. Never thought of being friends with you, but look where we are now. Ha ha. You made talking so easy, were always ready to help and made me feel so comfortable and confident during all the hardships at the institute. A lovable and loyal companion - so lucky to have met you, blessed to have you :-)

Abhishek Datta : Tere ko dekhte hi bass ek cheez yaad aati hai, tera khujli. Tanki me filter lagaiyo, soft water ke lie. Exams ka guru hai tu aur PUBG ka bhi, thanks for the detailed interview talks. Have a great life at Germany. To be honest I am jealous of you guys, dost hai islie bol dia. Trip baaki reh gya. Chal, Stay happy.

Sreyashi Mandal : First of all let me apologize for all the times when I woke you up in the morning just because Datta would switch off his stupid phone while sleeping. I really liked the way you would pick up the call and without any annoyance answer, "Haan Sreyashi, bolo". I cannot be thankful enough for all the last minute explanations before exams. You are an amazing teacher and an equally amazing human being. Even though we were not really close friends, I have always held a lot of respect for you. Wish you all the best for your future. :)

Bhawna Bhawna : where do i start.. i remember our initial days in insti when we used to walk around campus in the night and share our life stories with each other.. you were a lovely lab partner and i could never imagine a day without you in the lab... i have learnt a lot from you and will always be thankful to you.. m hamesha sochti hun k koi intelligent and down to earth kaise ho sakta h.. I love you Rahul and please khujli ka kuch kar kyunki Germany me khujli karta acha nhi lagega...

Responsibility, goodness, benevolence, hardwork, ability to take split second dicission you are a champion but you don't have any sort of cheap showmanship. And that's why I always respect you as my elder brother. Your commitment is remarkable. And you have very, very deep concept in many fields.
