Krishna Subramani : Sankhe San, Where do I begin... Project with Prof. Shevgaonkar to Auditory processing to Japan to South Park ;P Add to that talks on nearly every topic under the sun (from 5 mins to a few hours) Bahut maza aya hai tere saath, looking forward for this to continue aage (US aa ja baadme Ph.D. ke liye!)

R Aditya Narayan : Hey Mr. Trojan. Freshie year to 5th year has been such a transformative time for most, but no one as much as you, and I liked all versions of you for their own weirdnesses! We've had our ups and downs and I feel like we are super close right now. I hope you get done with this "I want to work business" and join us in the US. Thanks for all your support and talks, insti would not have been the same without you.

Aryan Agal : Yo Pranav Whatever our differences, a lot of respect for making tech fun for me in 1st year. Aap kaafi machau ho, and it was a privilege to know you. Thanks!

Ayan Choudhary : Are Sankhe bhau ek number aadmi ho yar sbse pehle XLR8(2016)me baat hui thi apni and uske baad ITSP(2017) mentor matlab har saal kuch na kuch bakchodi kaati hai. Also you have a big influence on me because you were always soft spoken+cool+exhibiting 'the getting work done completely' attitude which I look upto even today. Baki aapne tharak ki seemaye paar krke(and random walks ki kahaniya sunake) kafi gyan diya hai. Finally I want to thank you about getting my thoughts clear regarding political stuff and for those Ram Ashray/ Merwan trips xD Machate rho :D

Anirudh Singhal : Sankhe bhauu, I met you during the debugging session of XLR8 and after that you made all the ERC events a lot fun, be it night out during line following or multiple outings during ITSP. Thanks for all the awesome memories sanke bhau!

Apurv Tiwari : Sankhu! Cotton grinning and the random walks tumhare sath were so much fun. And shit thakns for reminding, cotton collection par niklunga main <3 My best memory is waking up on gloomy mornings in H18 to a very mild sound of ajeeb dastan hai ye and getting my mood uplifted and instantly knowing ki kaun baja raha hoga. And that rotating thing in front of your room was my fav timepass, I used to sneak there when no one is looking and used to rotate it infi infi :P Stay in touch and keep sending retro songs. Also, NUTAAAN <3

Rahul Manglik : Sankhe Bhauuuu lml. If you see something odd, there is Sankhe involved! isse jyada bolunga toh suspend kar denge aapko xD

Sushil Khyalia : tharak ke dusre naam _/_ itsp nightouts pe literally meri insti life peak hui thi baadme itna mil nahi paaye though in person (J _ L,)

Sanyyam Khandelwal : Sankhe Bhau!! Aapse Li-Fi ke workshop mai mila tha, tabse ab tak bahut kuch seekha hai apse and kafi mast time bitaya hai xD. I'm really happy ki maine aapko insti mai mil saka. Mera infi RR sunne ke liye thank you(itna sanyam toh mujhe bhi nahi hai). Kisi din mile toh poem sunne challenge xD. Ese hi life mai machate raho and morning walks par jate raho xD

Prakhar Jain : Yooo sankhe Broo... 5 saal tere saath bahut mazaa aaya brooo. I have really enjoyed knowing you and seeing you modify from trojan, crop-top sankhe to the awesome sankhe you are today. I have looked up to your awesomeness, balancing research and social life incredibly. I have found solace talking to you in the time when I was upset about the bitchiness and stupidity of people. Best of Luck for your future and Let's stay in touch in the future :P

Ravi Kumar Kushawaha : I still remember our first discussion in Hostel 15, which also included Sir P.N.Aditya. You were one of the guys who inspired me to tinker. We were in the same team in XLR8, not to forget the Great "Shakib". Aapke poor jokes are not so bad and aapki shayari bhi kafi achi hai. Apne lab mein jagah dene ke liye dhanyawad.

Kratvesh Pandey : Sankhe bhauuu! Even I feel that I missed out the bakchod TL wale sessions during first summers jab aapke tharak ke kisse sunne mein aate the but I am glad we met and had all those gossips at BnB. Kaafi mast aur ethical Insan ho aap I will never know kyun tharki bolte hein aapko XD I always wanted to visit your room to see all those plants you kept par mauka hi nhi mil paya :(Jaldi wapas aao Japan se and let's catch up super soon, I do wanna know waha dobara kitna macha ke aaye ho iyswim xD

Sumukh Vaidya : I was really impressed by your empathy and level of activism instead of armchair theorising and keyboard warring. Huge respect for that. Our in-mess discussions were pretty fun too, thank goodness for H18! All the best for your career!!!

Kumar Ashutosh : Sankhe bhau!! It all started with Chinmay narrating Sankhe ki stories in TL at 3am. From those fun-filled first year summers to serious research discussions in H7 canteen and also near that staircase on the ground floor, you are super fun to talk to. Your fun-filled story at bnb during a bday meet was awesome. Japan me machate raho aise hi :P I appreciate your love for plants. Keep it up!!

Aman Mishra : Sankhe bhauuuuuu _/_ Yaar ITSP to memorable ban gaya, all thanks to you. Kabhi nahi bhool payenge vo time. Pehli baar nightout maara tha mene and totally worth it! Kya kisse sunne ko mile the yaar XD. Bohat mast insaan ho aap, certainly one of the coolest people I know. What a charismatic personality! First year ke baad jyada mil nahi paaye but ab jaldi hi milenge aur vaisi hi mehfil banayenge XD. Eager to listen to your new stories. P.S. 🙌🙌🙌 ye vaali mentoring ka special mention to banta hai XD.

Risha Agarwal : Hey Pranav, Whether it's marine drive or Tokyo or some random restaurant or even nothing at all, everytime you speak about anything at all, it's always an amazingly beautiful combination of words. One could sit with you for hours and listen to how passionately you talk about things that you like. I know that you're the kind of person who will give honest and important advice to people WHILE CRACKING A REALLY BAD PJ AT THE SAME TIME. I do wish your PJs come back and also, the spirit story will always be the one I've always liked the most 😂😂😂😂 I hope Tokyo vala plan kabhi sachme ache se implement ho. I hope that we see other and go to marine drive once :) Keep being the beautiful you and I hope your postcard collection keeps growing beautifully ❤️❤️❤️
❤️ Google duo soon? 😂😂😂

If you could pack up a bunch of things from the institute to keep with you forever, what will those be?

Wingies and Lakeside

Yearbook
2020

Pranil Joshi : Yo! I will remember you as the machau senior, but in a hatke way. Your "eccentricities" (read as your love for classical music, theatre, botany, and "looking for music in Picasso's paintings") are really what set you apart and make you unique! Rarely do we get to see someone who is so passionate about what they do. I love that you mingled so much with our batch. I love that you were always available to talk and only one text away from answering all my questions. Looking forward to when our paths cross. Continue to be your amazing self!

Yash Shrivardhankar : Sankhe Bhau!!! The coolest marathi senior in the insti! Probably the first one too! What amazes me is you taking interest in almost all the things. From classic old movies and songs, gardening in room, all the technical shit and standing your ground for the issues and people you care, not only in the institute but in life in general. That's a diverse palette, I must say. Thanks for making our freshie year summer memorable xD. Also we had some really fun time at SATLAB as well. Probably the only one to team up to make puns on Anmol. Thanks for trusting me and Patil. Means a lot! Would certainly love to attend some nice play or something along with you!

Sanket Agrawal : Snakhe! Mah mannnn. There has been a lot with you bro, a lotttt, I don't know what can be revealed to the public and what not xD we started properly interacting from being conveners, all the bakchodi we did. TL main gaane sunna, darsu bhai ki taang kheechna, managers ko BT dena, teri ID see random harkatey krna and what not. Fourth year was again back in full action with all the fun we had in wing and when the club group we revived again. We really do share a common love for poems, keep sending me good stuff yr, it's been a lot of time since you sent it. Fifth year was more fun with aag lagana 101, friends, mess discussions and late night bakchodi. Do stay in touch dude and all the best!

Anmol Gupta : *sigh* Where do I start? From "yeh banda aise kyu chal rha hai?" to "Yeh banda abhi bhi aise kyu chal rha hai?" :P I honestly don't remember much before 3rd year, but that year changed things completely. You were one of the first people in insti I had cried for, and not without reason. Thereon, there was never a single moment with you that I wouldn't savor. Shor Bazaar, JLF planning (Sorry XD), the H7 gala dinners (and those times oooof), THAT 4 am call that shook me completely, the SoBo tour, the protests, the better-brother and the room-decor competitions, and most of all, those conversations. I'm gonna miss you terribly, I guess. Kranti ki jwaala jalti rehni chahiye :P ~ The Dude Abides

Somansh Chordia : Sankhe bhau! TL me raat ko sote huye jo aapne time management pe funde diye the ab bhi yaad hai. Baaki aapke machane ke kisse khatam hi nahi hote. Zyada interact toh nahi kar paya insti me, and from what i know about you, you seem to be the most interesting person I've met so looking forward to great times in Tokyo!

Abhishek Singhal : Yo Sankhe bro! I too had a really nice time interacting with you last sem. Actually apni baatein kafi varied topics pe hoti thi and mostly those which i thought i had not touched upon before. The talks were definately a stress buster for me during the placements sitting in a lab all the time. I wished we would have interacted more in our first four years. There is so much to learn from you and i really admire the pride and confidence you have in yourself. Keep in touch bro and keep enriching the world with your positivity. Macha dena yaar. I hope we meet soon (maybe convo haha) . Goodluck :)

Sagar Kumar Seth : Yo Sankhe ! You are one of the coolest senior I know ! Had heard quite a lot about "Sankhe kitna machate hain" before our first meet. But at the same time you were extremely humble. On HN treat you introduced me to litchi flavour paperboat, instantly became my favorite too ;). Aap ke saath kafi maza aaya Satlab main kaam and bakchodi karke ! In the short time we worked together your ways of handling things inspired me. Thank you for all the fundaes ! Wish you great success for future ! Machate rehna Sankhe Bhau !

Devyani Verma : Hello Sankhe buddy! Your puns are growing over me (like your recent freshly potted plant :P) Apne morning walks are my favourite memories with you <3 Thank for always being proud of me and having faith in me! I love how you see life and everything and your sense of revolution is so infectious! It was because of you that I started going to those events of IITB for justice and I am so glad a part of me grew so much by these experiences! Can you stop bullying my SO tho? ugh. I wish we had one more chance at the lakeside morning walk! We will stay in touch, thanks to your pot-y puns :p

Pragun Badhan : Sankhe aka tharak ka doosra naam xD. Easily the most fun I had with any senior was with you, especially because of the ITSP summers. The Ramasharay trip was gold xD. Let's meet in Japan for sure cause kya pata kab abki guidance ki zaroorat pade (or just a wingman xD)

Prudhvi Kavya : Sankhe!!! Honestly tu 3rd year ke baad bilkul gayab ho gaya physically :P I don't rememeber seeing you in any of the classes xD But I do rememeber all the Facebook wali masti! I still can't digest how much you care about classical music, dance and theatre. I am amazed at the way you express your love for them! I have a feeling tere se maine inn 5 years mein kabhi na kabhi harshly baat kari hogi, and I'm sorry for that :) But never let go of your expressive and bold nature! Stay connected :D

Satyam Mohla : Sankhe... You are one guy jiska life ka style mujhe kabhi bhulne nahi waala... to telling me all about kangna raunat to how queen is the best movie of us, in the middle of the rain at h7, to just your wacky ideas of getting inside someone's head and understanding music, to you telling about going to azad maidan to protest... things have been interesting... Keep them that way man. stay in touch as always, and uber na mile to local se virar chale jaana. :P Take care in japan man.

Mohit Madan : Hello horrible friend. I mean hello best friend. Apan woh dost hai jo ladkee ke peeche lad chuke hai. Aur kya hi bolu.

Pramey Singh : I hope we can continue our absurd debates on useless topics for eternity. I can't say you have changed much since first year, same inquisitive outlook and weird obsession with art. Keep your straightforwardness and genuineness forever.

Sarthak Sharma : Broooo ! aapke sath Hostel ke random and sarcastic discussions kabhi nhi bhulunga, also woh aapke 4th year ke Badminton matches :p Election wala time toh baap ta! apne left-right wale taunts dubara start karte hai mazaa aata hai un mai xD Stay in touch :D

Shreyas Pimpalgaonkar : Sankhe bhau! First of all, Nutan <3. Thanks for being the best mentor in ITSP, couldn't have achieved anything without you. We definitely share a lot of common interests! I hope to stay in touch as well. All the best to you!

Nimit Himanshu Kapadia : Hi Sankhe!! Yes...we did not interact much but jitni baar bhi kiya..it felt really good. You are such a chill and easy to talk to person. There's a passion in whatever you do and it clearly reflects when you interact. I really admire that about you. Also most of us were really rooting for you to apply for a PhD :P. Job karne mein jyada engross mat ho jana ki PhD enthu chala jaye...you'll make a damn good PhD student!! Best wishes and stay in touch bro!!

Darshan Tank : Sankhe bhau!! Haven't we come a long way? I would love to believe our proper first meeting to be the one after ec conveners were announced :D There is literally too much to be written in 700 letters. All I would say is, you have grown from a naive boy looking for mature girls to mature boy looking for naive girls (right?) It is good to have a friend like you. Bakchodiya to chalti rahegi, Indians ka adda banate Japan me xD

Ritik Madan : You remember how weird you were in the freshie year? Bhai tu abhi bhi hai, bas kaafi precious wala weird and also an amazing human/genius XD. I really admire the passion you have for your stuff (literally everything). Sorry tho, I couldn't continue with Elec stuff with you but polt mein I'll be by your side. Always! *wink* Sometimes I have sucked at being a good friend but you make me wanna do better at friendships because obviously I don't want to lose you in this lifetime. And Kraken toh hamesha dil me rahega na :')) And BTW this is just for the yearbook, you can redeem your asli senti kabhi bhi when I'm bhand (preferably in Vegas?) XD

Neeraj Sohani : Sankhe, you're really one the most passionate people I've met. One of best evening I've spent in insti was with you in your H7 room talking about impressionist paintings, the plays you've seen, the poems you've written <3 and your analogies of railway stations. I, too, loved to share that experience at Gateway with you. Thank you for the advice you gave me just before I left for my placement interview :p even though I didn't agree with it, I eventually had to do it. I've developed great respect for you over the years and I hope we remain connected in the years to come. Stay happy and stay blessed!

Awanish Kumar : yo, badlav kaafi logo me aate hain but achhe badlav acchhe logo me hi aate hain. yaad to ni hai ki apan pahhli bar kab baat kiye the but ye yaad hai ki mujhe samajh aa gaya tha ki tu achha insan hai. tere purane songs sunne ki adat, badminton me teri band bajana (haha), tera plants ka love kaafi kch acchi yaade hain teri to. tera hamesha apne aap ko as a person improve karne ka passion yahi sab to yaad aayega re sankhe. touch me rahna bro.

Anirudh Mittal : Thank you Sankhe for being the most active club seniors! I really admire your passion for science and engineering. Hopefully will get to stay in touch and learn more things <3
