Sancho Simmy Louis : One of the first people that I spoke to at IITB(even before my exams and admission).Chill dude from machines lab. Best memory : Igarpuri lake side camping !!!!

Pushkar Chaudhari : Very down to earth but always looks up at the sky while walking :D. Captain of machine lab RAs. Whenever there is a problem, and everyone around him are suggesting some stupid solutions, this man goes into his own universe (We all refer to it as "Nambisan's Universe") and suddenly comes up with - "Aree.... " that's when we know that he has come up with something. Nambisan, anyway we are going to join the same company. So, you still have an opportunity to defeat me in FIFA someday :p.

P T Cherishma : Even though you are a malayalee, I might have talked the least with you among our PEPS group 😊 partly because you were always in your own world 😊 I was actually shocked when I saw u dancing at our PEPS grp bday party at BKC dive 😊 Wish you all the very best for a bright future 🙏 Keep in touch 😊

Modani Abhishek Sureshchandra : Abb mai udega!! All the PEPS guys can imagine him with this statement. SRK of Kerala jo ladki ke baap se ladki ka hath mang ke laya. Best roommate (meri biwi :P). If you can't find him in the room, then probably he is in IITB hospital. You are the most modest and chill person I have ever met. Always thinking out of the box to find solutions. We had a lot of great memories together, the best being the Manali trip and 2nd year wali Holi...:P. Will miss you in Bangalore. Stay Happy. Cheers and all the best

Prabhat Chowdhary : Bhai ko gloves chahiye ki blouse, aajtak nhi samjha. 'Fading' sunte rehte hain din bhar. Har doosre pregnant ho jaata hai , fir doctor bolta hai ki gas thi. He has a secret hidden away in thane, tells everyone its family. This fifa noob is a Messi fan, worships him twice everyday. Bhai ke darshan kabhi kabhi hi hote hain, but every time is a zen feel.

Sandeep Narayanan : If "thug life" had a face!!!! A very calm and reserved guy, the captain of machines lab, the only person in dept who go n meet our boss after bunking the important meetings and come out of his room blushing!!!! Wishing you all success in future and mental strength to bear more NASA stuffs from ur darling Pukkar!
