Aniket Limaye : I think I'll start by saying that you're the person who has influenced me the most in these last four years. It was truly epic that we were wingies in first year coz for me you're the most relatable person I've ever met/ will ever meet. I could literally list things I admire about you... Self-confidence, being considerate and always willing to help friends, your lively personality, and just being the most reliable person, to name a few. Whenever I think about insti life I remember us singing to Ed Sheeran songs, me beating you at TT, our late late late night walks, discussions about everything from tv shows to philosophy, and ranting about our frustrating days due to stupid people (no one in particular, they're all stupid right? XD). I will miss those little things with you, but unlike Robin, I'm sure we'll not miss the big moments!

Shreyas Likhar : Kandala Sir!!! apan to first year se hi jaante hai...socha nahi tha ki dusre hostel me rehna wala banda 4th year tak apna padosi ban jaayega. 4th year me to bahut saara "gyaan" share kiya hai apan ne..kuch reh gaya tha "gyaan dena" but I guess fir milenge tab de dunga XD...placements ke time shirt konsi pehnu se baathroom me garam paani aaye to bata dena.....You have always been very helpful, calm and mazedaar. Stay the same aur yaad rakhna hame bhi..Lots of love

Rahul Agrawal : Bro, apan ka majority over the interaction to apps phase me hi hua, but kafi knowledgable hai tu - ye feeling aai har bar. Tera ek mentee pseudo-adopt kra hai maine, ek treat to de :P. Bay area me milte hai ab bro, let's stay in touch :D. Machate raho. All the best :D.

Kushal P Yadav : Hah! tere liye senti xD. I'll just put out some names, remember the "nice memories" you had with them Aditya Bhat, Neel Shah, Akram and obviously, Pratiksha Nikhare :p :p

Arpit Kedia : Last 2 saal mein hi interaction hua, par aisa lagta hai tu humesha se jhel raha mujhe. Labs mein toh kya maza aati thi, apan dono experiment se dur hi rehte the xD. Canada mein toh alomst pura sight-seeing tere hi saath kiya, and map follow karke kitne random jagah pahuch jaate the apan! Mere saare apping/visa/GRE/admit doubts jaise solve karta tha tu (aur abhi bhi), main nahi dikha pata itna patience. Wikipedia fact! - The number of genuine people are declining, so stay the way you are ;) Main teko pareshan karna band nahi karuga videsh mein bhi, and waha ke bhi trips ka plannig shuru karde abhi se :D

Harsh Siloiya : I don't think I need to write anything to let you know that you were the most bestest friend I could ever have during our time in both DPS as well as insti :)

Pranil Joshi : Moon guy! You suck! I have missed out on our friendship for three years, but we can make up for it in the many years to come. You know what you mean to me - being the detective that you are. I will continue to say that you are highly opinionated, and very particular about your morals. Being the handwash guy for 4 years has prepared you well for this pandemic lol. Our BnB walks and 3am talks have made me introspect a bit too much this past year haha. Of course, this is far from goodbye - let's take night-time walks on the golden gate bridge with our iced-latte-without-ice-without-sugar. And I know that however much you claim otherwise, I will always get visa-free entry at your place <3

Malhar Jadhav : Aur Sumanth Bhai !! apna PACE wala friend. Tu infi cool, helpful and genuine bandha hai. Thanks a lot for helping me out from my JEE days till my placements. First year main hamare wing ka ek baandha GPL se bacchne ke liye tere wing main chipne aya tha . Usko pakadne main help karne ke liye thanks😂. Second year main apne hostels change hogaye phir bhi hi bye hoti rahi. All of a sudden tu final year main padosi bun gaya. Bahut maza aya last sem main tere saath football and counter-strike khelne main. You have a pretty good aim and you play very cautiously (applies to both CS & ur Life😂). Aise hi machate reh and stay in touch!!

Yash T Rajan : To be frank, one of the coolest people in the institute, jisase main thoda relate kar paata hun. Agar tujhse koi ek cheez seekhni ho, to that would be ki apne kaam ko enjoy karna, and use bina pressure liye complete karna(not applicable for TFE courses though :P). Canada mein festival ke time random steps par baithe logon ki bitching yaad rahegi mujhe. And Niagara trip to will forever be etched in my memory, tera phone na hota to most of the pics bhi na hote XD. Haan branch kata sure, but uski jagah ek pyaara dost mil gaya<3 and yes, tu jitna bahaane banaata hai, usase kahin jyaada kaam karta hai, everybody knows :P

Mrigank Ashesh : Bhai Techfest saath main nikalwaane ke liye shukriya. Tu nahi hota toh Manish kaafi bhari padhta mujhpe. Baki duaon me yaad rakhna 😊

Atharva Jaipurkar : Kandala bro! JPMC talk me feel aai thi bhai saath me prep karne me aur execute karne me! Machaya tha tune waha bhi! You are really hard working and smart! I remember tu kitne efforts dalta tha testing karta SeDrica ki testing me! We never got to work on any project together bass woh thoda guilt hamesha rahega! I can't thank you enough for always being there for me in the fourth year! I really nean it when I say, it wouldn't have been possible without you and amogh! Apne H18 ke wings ke round lagate lagate cheeze discuss karna, sath me baith ke resume banana, tere mature tips mai kabhi nahi bhulunga! I know tu future me jaha bhi jaega you will do great! Be it further studies or JLR! Apni ek fourthies ki party abhi bhi due hai! Insti me aake chalte hai 😊 Take care man!

Hemant Kumawat : Yo Kandy!! I always relate myself to Master Shifu, eternally searching for Inner peace and Chi. You were like the Master Oogway, always energetic and calm (although I believe Panda is more appropriate given the amount of food you devour :) Whenever I used to get angry(which I used to do a lot) or sad, I would always turn to my Master Oogway/Panda. And your wise words would always cheer me up. Thanks for inspiring me, encouraging me, and at various points of time tolerating me. Our friendship had a perfect run during our last four years and I hope it remains the same. "2 Masala Grilled Sandwich-jumbo", a cup of coffee, late-night walks, and long discussions pretty much sums up our third year. I wish you stay the same old 'Crap Bag' whenever we meet next. Love, Hemant.

Beni Madhav Agrawal : dude , gonna miss insulting you and getting brilliant insults in return, you are one of the few people with whom id prefer talking face to face rather than via text, i am jealous that you get to spend more time with chindi, but i got aniket, so i win :P, dont worry , i'll take care of that stupid kid for you, i've had some practice. thanks for the year or so of witty conversations and bnb walks(not many but enough to be remembered)

Harsh Vazirani : I enjoyed our little chats and trips to Kresit for maggi during midsems and endsems. If not for you, I don't think I would have survived some of the courses. My parents/friends literally bugged you for so many things, so thank you for helping out and checking in on me every now andyhen. I'll miss your humor and jolly atitude.

Kartavya Singh : As me said, you will be mine English's first victim xD. Anyways, bohot hi kamina dost raha he yaar tu. Gonna miss all the random shit we have done right from our first year. Mere almost har insti memory mein tu toh hoga hi. Teri random logon ki insulting (including me) toh bhool hi nahi sakta main. And haan always remember: Vegeta is better than Goku xD.

Kanishk Sinha : Kandala tujhse bada racist aur judgmental insaan kabhi nahi dekha mai 😂😂. Freshie and Sophie year mein kaafi interaction rehta tha apna toh, and kaafi mazza aata tha. Specially doosro ka mazaak udaane mein 😂. I still see you as a Dual degree though :p. All in all, intelligent toh tu hai hi and kaafi machaya hai life mein, also conversations with you have always been interesting. Best of luck for the future 🙏

Shubhankar Mihir Seth : Hey Kandala! Met you through Joshi in freshie year, and I've always felt that you're a really kind, conscientious and reliable guy. From sharing assignments (why did we stop doing that?) to the shady af places we visited to get the TV for our MM project, it's been a good ride, and I'm honoured to have had you on the team for SMP. Take care and stay in touch!

Anupradiksha Rajan : Tujhe infi pareshan kiya hai mene aur mere friends ne and I still dont feel guilty about it. Abhi to mere friend ko unblock karde, iske aage tujhe koi pareshan nahi karega, including me. Anyway, Alls well that ends better. Good Luck

Trishant Roy : Sumanth bhai! Tune aur Hemant ne third-year intern ke time kaafi help kiya tha... Chahe path planning ka doubt ho ya SOP review karwana, tu humesha approachable tha... Tera se baat karke maine Leena ma'am ke under SLP liye tha... Woh project chalte chalte abhi bhi chal hi chal raha hai XD.. Thank you and all the best for future :)

Amey Patil : Yo Kandala! Though we were not that connected, and I only blame the lack of common courses for that, I always liked being around you. From CS 1.6 in the first year to the ML talks in the third year. It was always amusing and fun to talk to you about things. Your dedication(or apparent dedication in some cases) towards your numerous PoRs was always a fascination for me. I believe that College life is not only about academics, accomplishments and good or bad memories, it's about how we get our personality and ideologies from those experiences which we are going to nurture for the rest of our lives! And I'll always be glad that our paths crossed in the most amazing time of my life!

Deep Karkhanis : Bro!! Freshie year main Malhar ko kitna pareshan karte the yaad hai!! Deserve karta hai woh waise!! Aur System dynamics main bhi kaafi help hui teri wajah se. Especially coz u had vensim installed. Naito main assignments ditch hi maarta. Univ applications main help karne ke liye bhi thanks. Will never forget roz apne toilet ke bahar ke discussions regarding admit results... Btw agar tu malhar ke paas rehta hai toh lockdown main pareshan karna bhulna mat.. Anyway thanks a ton for all the help and hope we stay in touch...
