Deepthi Pratti : My constant partner in every lecture, can't imagine lectures without u. Also my saviour for all assignment submissions 🙏 We literally talk about anything and everything 😄 never get bored being with u. And u are such a great host 😊 Will miss your house visits. Huge respect for u for managing everything so easily and elegantly 😊 A person whom I can approach for any kind of advice in the future 😊 Thank you for always being there for me ❤️ Wish we could meet soon and have endless talks 😊, go shopping, dress up and make more moments to cherish for a lifetime. PS - A die hard fan of BTS, Harry Potter, friends and more on the way to the list 😊

Pushkar Chaudhari : We met in COEP back in 2014 through our microgrid team and yet we became best friends in IITB. We all took opti (it was an epic ride). The 2PM lecture and the coffee after that lecture. Btw, it's okay to fall for April Fools pranks :D. I was so sad when I thought you and Vitthal were not coming to Kedarkantha :D. I am going to miss our lunch trips to H11 and staff canteen and Nescafe at 4pm. I hate that your PSO code works better even though you started later. Thank you for hosting us at your house twice and making tasty paav-bhaji for us. (I did help as I recall). Also, one last thing... Power electronics is better than Power Systems.

Sancho Simmy Louis : 250 thousand crores ! For someone who makes this kind of money, you are a really down to earth and humble person ! My study buddy ! A big traitor when I remember my RPS course ! I took the course only because you promised to take the course with me ! You abandoned me !!! Studying for PSDC with you was lol. Our own theories to explain the shit in all those formulae sheets :) Kedarkantha was <3. I am so glad we did that !!!!
