

## TEWEDAJ TARIKU OLKEBA

Mechanical Engineering  
Football

Yearbook  
2020

**Nishant Chaudhary :** If only we had operationalised our kitchen, Abhijeet and I would have learnt and cooked some Injera and Tibs for you ... Seriously, IIT should refund your mess charges, I think I ate more in breakfast than your three meals put together :-P. Jokes apart You are one of the nicest person I have ever met, had great time in DFM and Stress Analysis ( How did we passed that course ;-). Take good care and stay blessed. Wish you and Moses a great life ahead. Stay in touch

**Satya Balli :** You were very shy and dont talk much but interestingly you used to post messages in our design batch whatsapp group in hindi... shocked to see that...nice you picked up more words in hindi than me..... Probably that was the first time everybody got surprised and replied to your msg in our whatsapp group.... I could remeber your tension in kdom, stress analysis, do and your excitement in RPD quizzes... remember we went and spoke to Guha sir for kdom corrections, you were crying that day.... , our discussions at library along with getebe(name may be wrong-another fellow ethiopian)....you and deepak are my design lab mates... you both dumped most of the work on me for almost all experiments
