Abhinav Jain : My first ever lab partner, you were the most similar person to me in terms of having attitude for ED lab. Pehle dono ne fight mara AutoCad mein chize karne ko machate hue 3 sessions nikale, fir dono ne Solidworks ko ditch mara & we didn't regret about it. Seriously tere bina ED Labs wouldn't have been fun, the lame jokes we cracked, seeing other people take tension when we chilled out in the ed lab(either ways: kaam karke ya ditch karke xD). Every interaction that we had afterward was refreshing as well as we always had something new to talk about! Thanks for being such a fun person... let's stay in touch!!!
