Rushikesh Avinash Navghare : Bhai tu god hai !!! Tohfa kabool karo is gareeb se. Yours will be the first door I knock for every problem I face. You are the person everybody can count on even with eyes closed. Keep chasing higher heights bruh. I am sure you are gonna make it big! I just hope you find someone in your life as adorable as Budweiser Magnum :p

Arindam Sarkar : The Oracle. The Problem Solver. Without you I don't know how I would have been able to complete my PG. And I think I speak not only for me in this regard. One of the sharpest brains, yet one of the most humble persons. Truly honored to have met you. Best of luck for your future.

Abhinish Anand : Bhai .. first of all you saved my lots of troubles by coming as a RA in Vlsi lab. I surely would have burnt the lab to the ground. thanks a lot for that..You are smart...little shy but good by heart. We used to discuss a lot of things in lab.. dont know whether you remember it or not but u used to make things understand very calmly. Your calm nature sure throws a positive energy. Be connected in bangalore and wish u all d best genius...

Mihir Dhagat : Bhai tune jitne madad ki h meri mtech m...i don't know how i will repay u. Thank u for patiently answering all my silly questions Aaj teri wajah se h thoda bahut analog is gareeb ko ata h. 😊.Bahut aage jyega bhai tu. Aur bhai banglore me apni bhandi ke alawa...humara bhi kabhi hal chal puch lena 😊

Shouvik Das : Really cool guy and so humble despite the wealth of knowledge that he possesses. Doesn't give out studious vibes at all despite his NIT pedigree. Will always remember the night-out with you, Abhinish, Dhruvin and Sunny. All the best to you in all spheres of life. Bhai ke bina VLSI lab soona reh jayega. I will be in deep soup once this guy and Abhinish pack up their bags after June,2020. :P
