Pushan Bal : "Page! Bro do you want to do this?" "Ahh, no." Always the same reply. I have seen you mature from a very very shy and almost timid person to the guy who burns Kalra and Behere left and right. Thank you for always being my study partner for honours courses. Could not have so well without you. Please stay in touch. Cheers!

Chinmay Kalra : "Ae Paage raa..." You have gone on from being just a lab partner in first year (only due to consecutive roll nos.) to being my roomie for 2 years and one of my closest friends in insti. I have seen you evolve from being an extremely shy Telugu lad to one who roasts me and Behere mercilessly. Your gentle and caring nature was a big plus for our wing. I will always remember your famous line to avoid going on an outing with us - "Aaa you go... I'll just sit and watch some videos". Thank you so much for everything bro.

Mangal Mannat Piyush : If there is someone in the entire batch who has utilised these 4 years to have a complete change in personality, that can be none other than you. From this introvert person sitting in his own room or with your gulti brothers the entire day in the first year, you have come here where you can talk to anyone and everyone and even roast people out. No one can make Behere cry as much as you do. It is amazing you are always ready to help others. Let's keep in touch and meet regularly cheers!

Amit Gangurde : Page ra! You have transformed so much since the first time I met you. From a very shy, new entrant to bhh to a totally savage guy. You helped me innumerable times bro. Thanks for clearing doubts and explaining concepts in detail even if few minutes were left for any exam. And also thanks for helping me out with the attendance thing 😊. Wish you all the best for the upcoming year!
