Madhur Sudarshan : From Mood Indigo to Inter IIT cult meet, you've always been the most interesting senior to talk to. It's been such a blast knowing you. I'm going to miss seeing you on the other side of the street randomly and talking for an hour about arbit things! That kind of friendship has been such an enrichment in my life. Take care bro, hope to meet you again soon

I really do wish to have started chilling out earlier. Cheers to Energy Building nightouts.. totally worth it! Europe trip toh honi hi chahiye!!!

Anirudh Singhal : Drishh had lots of fun with you in sunny and in Bhava's room during last sem! Forever gonna remember the first year MI due to your "stories". Bass thoda kam roya kar bsdk, and Netherlands mein aag laga dena (both figuratively and literally xD) <3

Rajat Rathi : Not Drish!! I remember how we met through the PACE connection and then randomly participated as a team in Brainathon and even finished second :P. Tabhi se kaafi mast bonding ho gayi apni (although hierarchy established thi xD). Freshie year mein we did a lot of stuff together, not forgetting FnB, FIFA, Dominion [kabhi toh woh din aayega jab tujhe haraunga :'(] and the stupid things that went on in the music room. Different hostels hone ke wajah se thoda distance badh gaya, but football and occasional visits were always fun. Don't worry, tera 10% wala investment plan kaam aayega and one day we'll also implement one of your 'Billion dollar ideas'! Amsterdam mein saath mein infi machayenge :P

Ayush Mahule : Bhai hum hi te jisme h6 ki sneak in legacy kayam rkhi ti ...despite so much efforts from vigil kabhi ni pakde gye 😂...i am happy for you bro for the life you are going to experience in near future (dream life) ..keep in touch so that i can also be a trader 😊! Aise hi chill rehna ...serious mat ho jana trading ke pressure me😅

Gurparkash Singh : Not Drish!!! I first knew you as one of the many cool friends of Rajat in the freshie year. After that we went on to do the ITSP together and then later became coordies for SARC (yes, I remember! :P). And sure enough, dono me hi I don't remember doing any work xD. Instead what I do remember is the fun we had. ITSP time H12 me dinners and udhar ki hui infi mast baatein. And SARC ke events pe bakchodi, especially during freshie orientation (if you know what I'm talking about :P). You're one of the most chill dudes I've met in insti. Yes, I also wish we had interacted more. All the best for the future and have loads of fun in Amsterdam with Rajjo (of course) :P :P.

Somansh Chordia : I remember hum pehli baar Viral ke room me mile the first year me and after I got to know you're from civil, i stopped judging people based on branch xD. I can never forget being a part of the panel with the same number of singles as the experience you had. Listening to you bitching people is always a delight xD. Even I'm missing my health updates presented in the best possible way so yeah, will keep sending content. 8th sem was the longest time jisme teko continuously itna khush dekha. With your caliber I'm sure you'll achieve great heights so just stay a bit more happy along the way as well :p

Rahul Manglik : Thanks for the goodluck Nancy, much needed. Always believe in finding alternate ways to do stuff cause you are too lazy and too smart to do it the normal way. Always welcome to my room. Pokemon <3.

Adane Sahil Ravindra : We have definitely done a lot of crazy shit together. But, the one month we spent in ITSP was definitely one of the highlights (room kuch nahi hota). It was the weirdest sleep cycle I have had, and we (sai, jalpari, and chaubal who kept bringing his 'laptop') were actually supposed to do a project then. My first time drinking was with you, and first time puking after drinking was with you ('shirish bahut strong hai'). Which also reminds me, we need to 'eat a sandwich' together before you leave. But with us, I think it has been more than that. You care a lot about the people around you. Your feedback has always helped and I have learned a lot from you. Good luck ahead and stay in touch ;)

Ritij Saini : Yo Drish! Your gossips are always awesome and all discussions/ roast-planning with you have added to my knowledge pool. The recent RR of an ex GS was also fun. Thanks for initiating some lit meme threads and some of the most enticing roasts that bhaiyaji smile would never forget (I will pin them in announcements :P). Also "Namya ke memes" was indeed the funniest meme page as most of my batchies know namya only through his meme page imao. Gadi will miss you as his lab partner

Sorry bhai woh room change nai kiya and hangout bhi kam kiya par jitna bhi kiya bohot bhari maza aaya hai har baar (Khaas karke woh yawning wala session). Kabhi bhi mumbai me rahe toh bindaas aana ghar, sab yaad karte hai tujhe ("Amsterdam" bola toh khushi se pagla gaye the sab). First year me kaafi cheezein tere naam se ki thi maine khaas karke h15 aana ho agar toh, thanks bhai uske liye. Over all the years I found you the most happiest in the last sem fixing all the pipes. Of all the people in insti I find you the coolest. All the best for the future, and agar chaubal ko saath me mile toh taala pakka phenk ke marunga use.

Utkarsh Chandra : Why is it that any kind of shit that has happened to me is always when you're around!! I almost went to jail, I had QRT saw an entire bed, I nearly got impeached and almost killed myself on a hill😂. But I still had the best time with you. I can't believe I'm saying this but thanks for rockstar and tandoori nights. Hope Amsterdam is fun and really wish that one day my plan of visiting you is successful.

Mrigank Ashesh : Drishh... bhai you have a contagious smile. Keep smiling 😊 Also, bro tu treat kab de raha hai😁 All the best future ke liye. Time mile toh Jalpari ko yaad karlena. Ok Bye....

Mayanka Medhe : Yo Drish(ti :p), ITSP wouldn't have been the same without you. You are always fun to hang out with and you are the best memer I know. Neil Dalal : Drishh! Kaafi creative and intuitive mind and you use it well to remember all sorts of things. You always have your own ways to get through things. One of the chilliest dudes I've known, for 6 years now! You deserve Amsterdam, but Amsterdam deserves you more. I'm sure you'll make the most out of the city and the people there ;) PS: Yes, we were always unbeatable. Hopefully khelege hum vapas, in the same team, and not just beat but thrash the opposition, for one more time :)

Razi Ansari : Yo Drish! Bhai mere 2 roommates the freshie year me ek soumil aur ek tu, last time pe study karna, kuchh bhi hojaye duniya mein ekdum chill rehna tujhse seekha... Bhaaiiii wo random late night stories build-up karna jis ke character kitne epic hote the. Spot se order karenge kabhi toh, late laaya to one-liner taunt bhi mareenge. Kaafi intelligent banda h tu, mujhe nahi lagta koi tujhse tere goals chheen sakta h. Tera determination aur confidence dekh ke kaafi motivation milta h.

Chaubal Soumil Kishor : I find it extremely surprising that you and I have become such close friends. I knew you were extremely smart and funny and you have validated this time and again in the past 4 years. Seeing all the posts on your YB makes me regret on missing out on spending more time with you but ig it's all for the good. Aise hi random topics pe baat karte rahenge. Love you brother ♥

Even I never expected us to be such amazing friends after the first labs. But clearly I was wrong. I can say for sure without you I would have messed up my cpi so much and definitely wouldn't have had fun either! I think the day we went to break salmans wall was the perfect culmination of our journey. Spoilt kids spoiling all the other kids in the lab group! I'm so happy you're going to Amsterdam even though mere saath job hota tera if not there xD. But I'm gonna miss you the most too! But not for long because you'll come back soon with the good stuff xD

Akshata Dalvi : The most sharp-witted and street smart person I have met. I am in awe of how you always manage to turn things around for the better. 😊 Be it that FIFA league you designed in a night or contributing to the last stage of the intern project and yet making it count. One thing I still find incomprehensible is how you managed to drop at the trading lab right when Bitan/Gautam asked for you. 😂😂 Printing out the entire Three-Body Problem at the library and disturbing Sri Ganesh while he worked are some of my most treasured memories with you. 😊😊 ISB was more fun because of you! Duh! You know I am always up for snacks 😊 May all your dreams come true. ♥♥♥
