**Aditya Tapase :** Hey Anand! Its so nice to have such a good-hearted friend like you. Until final yr, we were connected by our common Marathi culture and specialization. Enter final yr, numerous memories were made. The way you insistently invited all of us at your house in Pune, showed me how much friendly and good you are at heart. The placement prep, the games, the late night discussions will always be remembered. We will always remember your excited moments when you used to win a game 😊. Manali trip was so much enjoyed. Forgive me for the times I got carried away/crossed my limits. You are a really kind person. Enjoy your job abroad. I wish you all the best. And, would like to salute you Major Bakshi! 😊

**Unmesh Raskar :** yo Anand! Only you, me and Karan remained in insti from our PACE batch. You were a total stud back then and I think you aced elec at iitb like a pro. We only met here and there after coming to insti, but talks with you always used to cheer me up and u gave me useful fundae to tackle acads. You were one of the few ones who knew what I was before I messed it up in insti and I hope by the end, I proved myself to be a better person. I know you worked hard for placements and bagged a stellar job! Taiwan is lucky to have you! Lockdown ki wajah se last sem pura kata diya. Meet me at convo! All the best for your next journey, take care and keep being awesome!

**Nimit Himanshu Kapadia :** Hey Anand, it was really great to bond over our common interests of trekking in the last year. Also, the trekking in Kamandurg was sooo fun. Though we didn't complete it, it was still such an adventurous experience. I'll remember our talks in H-18 corridors discussing our past trekking experiences and future trekking prospectives :P. We'll definitely go on a trek again hopefully after this pandemic. Best wishes for future and stay in touch!!!
