

AYUSH JHA
Chemical Engineering

Yearbook
2020

Bhadri Narayanan R : Hello Ayush! I've never seen a person as determined as you. In spite of having the odds stacked against you most of the times, you never let it get the better of you and always made it a point to take it on with a smile. From cricket practice buddies in the first sem to gym buddies in the last sem our friendship grew. There were a lot of times when I only started studying after you come with doubts and pushed me to solve them. I'm very proud of you and wish you the best for your future :D

Saman Siddiqui : Ayush ♥ I had been trying to talk to you for a while! So the silver lining in me losing my charger that day in the library was getting to talk to you 😊😊 I really respect and appreciate how direct you are! Even though that means that I get scolded sometimes! 😂 i think you're a really talented person and I'm sure you're going to have an amazing life! I'm so glad that I got to know you! 🥰 Stay in touch! ♥

Ahsan Aslam : Yo bro! My fitness motivation..I should have listened to all your advices regarding that.Your commitment to staying fit is remarkable and inspiring.I am sorry for always making you wait for me to finish in the mess but I am grateful for the patience you showed me.I am extremely proud of how you tackled all your academic obstacles and got yourself placed.We met in mess by just smiling at each other and it's sad we won't be able to have lunch at that mess again for quite some time.Anyway I'll be keeping in touch.Keep smiling and all the best.
