Shubham Anand : Yo nams/nims, I'm sure no one has called you or will ever call you that 😂. I'm fascinated by your way of doing and completing things along with chilling out. We spent good time together. Your volley skills!! I was always afraid of standing in front of you.. pata nahi kab maar de. Will remember your screaming tactic. You are so hardworking too. Keep the good work going. Professor to ban hi chuka hai tu 😊. Thanks for recommending those good movies in any genre I asked for. All the best for future, hope we remain in touch. 😊

Shreyas Pimpalgaonkar : CHAMAN!! LIMONN!! You're definitely the craziest guy I have met. All the sems with you have been fun. I particularly like the music videos that you recommend. Really sorry for the DAC, I hope you have forgiven us for it. I admire you managing so much work and still taking time out to live and enjoy yourself. And by enjoying I also definitely mean jumping and wrestling. yeah, only you can do that. All the best for the future!

Syamantak Kumar : Arey Naman!! You're one of my closest friends in insti bro! I guess we have come a long way from discussing Quantum physics in the first year. And I will always treasure your friendship. Nachos combo dinners be the best. Likewise for me dude, I don't think it would have been possible to get through the last four years without knowing you. Your dedication, hard-work always amazes and inspires me. All the best bhai!! Ofc we'll stay in touch. And you never know, convocation is a long time ahead 😊

Nitish Joshi : Yo Naman! Ham pehli baar kab mile 😂 You are one of the craziest guys I know and I'll always remember your ajeeb harkate. Last year toh kaaphi time tu mere hi room pe rehta tha aur random baate karte the from you always recommending me west wing (or west world? 😂) to univ apping to tera prof pe tharakna. NYC trip pe bhi kaaphi maza aya aur Harlem mai rehna ka maza toh alag hi tha 😊 Jaise hai waise hi crazy rehna, I know tu life mai toh machaye ga hi. Ofc touch me toh rahenge hi

Ritesh Goenka : Yo Naman! Yeah, now that I think about it, it doesn't seem that we have known each other properly for less than a year. And it has been so much fun - I am looking forward to more :D. Baaki tera to kya hi bolu - machata hai be tu: from being the most hyperactive person I know to managing your studies and doosron ko pareshan karne wala time amazingly. McD wala karte hai be; luggage uthane ke liye to bulaenge hi college wale. And tu closer dhang se bajana seekh le tab tak :P. Stay crazy, stay mast! And I hope only the best for you.

Kumar Saunack : I had to practice social distancing with you long before it was the norm, after hearing what you did to Teja and your threats in volleyball. For all your antics in the wing, I never did see you study. Maybe RG was your method of up-grading yourself, but then you wouldn't have those publications to your name in the same way, would you? Or not?

Aman Jain : Bro, apan ne bahut Modern Family dekha hai saath me. Har Thursday ko naya episode aate hi tu aa jata tha saath me dekhne lol. Thanks for all the times you helped (saved my a**) in my BTP. Also, how can I forget your insane fights with manoj. Grad school jane se pehle bas thoda fit ho ja bhai :P

Manoj Middepogu : yo fatty, if god gave me a wish to change something that happened in last 2 yrs, it would be not meeting you, joking huh😂!! It was fun re, all fights especially door fights, volley ball scares, weird cricket. If i get any doubt in vision, you are the go-to. your dedication for the research is great man. yours is the first publication from the people i know in our batch. Just decrease your belly, everything is ok. stay safe and keep in touch.
