**Arjav Shah :** "Kuch logon ke saath rehne se hi sab kuch theek ho jaata hai"...I can't even state how difficult it is to sum up the yesteryears and reminisce any of our time spent on the 9747292 crazy things we've been upto. This is an humble attempt to a real gratitude and appreciation post. Thank you for ALWAYS being there. You've been the anchor, confidant and literally everything! Thanks for believing in me more than I've ever believed in myself! Indebted to you forever, bachcha <3 The sheer inspiration derived from looking at how hard you work, your perseverance and oh man, your focus has kept me moving! I have always looked upto you for everything! ChemE was wonderfully survived and enjoyable all because of you! Partner in every crime and of course, every lecture! xD I can't recollect anyone else on the seat next to me in the lectures. The understanding of each other's most lame and best jokes was reciprocated and the unsaid things we've understood for each other have just been flawless! From Merwans to TAJ, your hilarious dance :P, endless ranting, gossips, serious science, political and sjdhduizy discussions... there's been so much I've learnt from you. Keep your net practices on forever, okay!? ;- ) I am sure that you are gonna get the best there is just because you deserve it so much - simple! Jab Modi Ji ke right hand ban jao, tab yaad bhi kar lena hume kabhi, not that I'm gonna be loose in seeking your appointments :- ) Always remember that you're AWESOME and remain the purest, humble soul you've been. From our first conversations about you being our branch opener to these parallel universe lunches we've been having lately, we've grown so much together, mate! It's a journey that can't be described through words but I'm sure we'll always have each other's back. You've stayed by my side thru the thick and thin! Blessed and forever grateful...Lots of love and best wishes! Forever the Shah to my Modi <3

**Yash Samriya :** We know each other since the first week in Insti! One of the smartest, & very well organized people I have met! The first-year wing trip to Matheran where after a whole day of exploring, we lost the hotel & somehow managed to reach before dinner! Sir, aapke khane ki ability to unmatched hai! I do remember that Friday after two weeks of the second year, when after eating till brim in Gullu, went to Punjabi Dhaba just to eat desserts (that look the waiter gave us! )! That was some extreme eating! I think that's a lot of tales involving food but then we are both foodies! I am sure you will keep succeeding in life & maintain the habit of Sunday morning runs! Stay focussed & stay connected! :)
