Yash Samriya : Dude! You are the most amazing co-secretary one can hope to have! From ITSP 2018 to ITSP 2019, we have shared a lot! Those night outs in TL to somehow get the work done before deadlines were fun! Your dedication towards "ROBOCON" and "ERC" was impressive! The council meets which had no conclusions even after hours of discussion, trip to "Madh Island", team dinners, late-night lukhha will be remembered! Thanks for being a constant support during placements! Stay in touch! :)

Bhishma Dedhia : You are the best co-manager anyone can ask for. Tere bina ERC mein kuch nahi pull off hota _/_ Kaafi pains diye hai maine tuje and I am sorry about that. You also happen to be one of my first friends in elec. Thanks for constantly inspiring me throughout the convener and manager tenure. Milte hai jald hi for another TL impromptu dance session with the gang. Keep rocking and all the best for a bright future. Love you loads man!

Azmera Akhil : Yoo roomie!! How come you don't study anything before exams and still get excellent grades ?? share your ninja technique with us too!! You have been a crucial part in my acads, most importantly in first year . you've explained the whole syllabus to me in just two hours. Poker and cabo nights were fun. I always used to laugh at your youtube feed, kitna random stuff dekta h tu :p. Your homemade plum cakes are awesome, please send me few cakes every Christmas even after graduation :')

Abhinav Jain : Tere bina tech council ka kya hota xD. The banda with the most genuine enthu for happenings in the tech council... I never had a bonding with any manager in the tech council so well as I had with you and vikrant. From making space in timelines to accomodate every club's events to contacting vendors for making telescope related purchases your help has been beyond one can expect from a colleague. Those infi treats and late night trips to marine drive and madh islands will be missed!!! :-)

Sakshee Anil Pimpale : Hi! You have been an amazing Manager. Initially lagta tha ki manager hai sambhalkar raho .Baadme when I saw I realized woah! There's nothing like a manager here, here there are guides, our seniors, we are a team and they are there to help us out. You have always been extremely understanding about my concerns and have always valued opinions of us all so much. The treats you gave us utna restaurants mei toh bachpan se college aane tak bhi nahi khaya hoga :P Your dedication towards Technical Council had also been very inspiring. In spite of the busy elec schedule, you always took out time for everyone valuing human relations more than anything. Thank you for everything and best wishes for the future!
