

VARAD MAHAJANI

Metallurgical Engineering &
Materials Science

Pushan Bal : The most composed person I have ever known. Your voice is so calm, you bring a certain gravitas to every conversation. An extremely dedicated individual and an excellent driver! I don't remember the times we have used your car to get to the movies. Please stay in touch and I will so hope that we land up in the same place after you graduate. I will sorely miss having a cool contained guy like you by my side. I hope to stay in touch.

Aman Sharma : Yo Varad! That DIC project will never be forgotten! You're a great friend to have and it's always been a delight talking to have a conversation with you. I know they've short lately, but hope catch up on all of it sooner if not later. The smart, kind person you are I'm sure great things await.

Amit Gangurde : Varad bro!!! Fitness buddy! How do you always manage to stay so calm? And thanks for giving us a ride in your car on so many occasions. Will miss all the fitness related conversations man. All the best for the next year and stay in touch!
