Nitish Joshi : Firstly, extremely surprised that you decided to come on yearbook haha. I've known you since a long time now (9-10 years I think?) and I've always found that we have very similar interests - from math olympiads to EE to CS to getting involved in research (albeit in VERY different fields :D) to PhD now. You are one of my closest friends in insti and I have learnt a ton from you. One of the fondest insti memories I'll always remember is we three discussing random things in front of H9 after every class for a very long time. I'm sure tu Berkeley madhe bhari kaam karshil ch and you will definitely achieve great heights in life! Baaki let's meet once this lockdown is over.

Nilay Pande : Ahh, you have finally succumbed to the pressures of social convention and joined Yearbook. Pathetic. No excuse for such moments of weakness. Joking aside, I am thrilled you are here man. I will always fondly remember the super dark jokes, your mischievous nature, the insanely long discussions on random topics and the never ending pranks on your adorable roomie xD. I will always remember our laptop prank in 1st year xD. You, Nitish and I have been like the three musketeers in insti. You have also been quite an inspiration to me, especially the way you think and your work ethics. Also quit being so humble and start looking for the girl who is into program verification. Lets meet soon bestie.

Naveen Kumar Yalal : Tu ek psycho insaan hai thoda! logon ko pata mat chalne dena. rude toh tu hai hi waise, aur kabhi kabhi jo kar rha hota hai uspe bhi dyaan diya kar bahut khoya khoya rehta hai tu uski(some research paper) yaadon mein.
