In my insti life, Never have I Ever:
Had all 4 meals of the day in the mess

Yearbook
2020

Bohra Ankit Narendra : Arey Shubhankar Sir _/_ We got to know each other in the third year but aapke charche toh meine first year se sunne the. Alag level machau ho aap but at the same time humble and helping bhi. Fluids lab group, IEOR ke courses, tgif treat and revelations aur bakchodi sab yaad rahegi. You for sure have a glorious future!! All the Best! Stay in touch sir.

Sahil Shah : We first bonded when you invited us to Dehradun. It was an amazing trip - no one else could have provided such impeccable "hospitalisation"! Besides giving me a friend, sharing a room with you for 2 years has taught me a lot since I have been able to see the poise with which you present yourself, maintain all family and professional relations and keep pursuing goals that haven't been achieved by others before. We've not been able to spend as much time together as I'd like mostly because I was always too busy and then corona took the best semester, but you'll always have a friend in me! All the best, I'm sure you'll get wherever it is you want to be and hopefully I'll be a part of the journey!

Archiki Prasad : Shubhankar, you are the most understanding roommate I could have asked for XD. Thank you for all the support, especially all those times when I lost my phones(s - again how many were they? LOL). Again, thanks for the Goa trip, I know we complained a lot then, but I can appreciate it now. Jokes aside, you have been very insightful and helpful to me (and so many others). More importantly, you have offered your (very helpful) advice while I was taking some of the most important decisions in my Insti-life. Stay in touch (because I am going to lose my phone again XD).

In my insti life, Never have I Ever:
Had all 4 meals of the day in the mess

Yearbook
2020

M Vishnu Sankar : Yo Mentorji...Thanks for all the help you have done during the freshmen year to us(wingies). Can't forget the HOT SEAT game and mafia in freshie year. Don't forget to give a treat before leaving insti forever XD (not Pizza Express this time). Once again thank you so much, we are going to miss one of the best human beings on earth. Jahan bhi jaaoge Machadana, have a fun and adventurous life ahead. #FISTBUMPS

Dhanpat Singh Meena : Dear Shubhankar Bhaiya, you were always my big brother in your Mentorship tenure. you always help me, encourage me as you always. "Do you know", you are an awesome precise soul which i have ever met. I have learnt many things from you. you are one of them inspiration towards my academics and leadership. I was lucky as you became my mentor. All wingies love you a lot. I wasn't ready to say goodbye, and I'm still not. I would like to say thank you so much for everything. From my side "Dher saara pyaar and blessings".

Hemanth Dontamsetti : "We are very privileged to have you as our mentor." This is what we, wingies usually say about you. You helped everyone individually and as a group bringing us all together as a family. I also have a hope that you will always stay in touch with us whatever heights you achieve in your life. Thank you for lifting my calls and helping me out when I reach out to you.

Ayush Puri : Sirji baaki sab to thik hai par vo last me clueless padhke mera haste haste pet dard hone laga. Kaafi memories hai aap logo ke saath , hamesha yaad rahegi vo saari outings aur trips. Hopefully aur trips pe challenge saath me. Abhi hi keh raha hu mai ki, weekends pe plans mat bana lena zyada , meri bakwas sunne liye time nikalna padega. Apni chatrachaya me banaye rakhiyega mujhe :-P

In my insti life, Never have I Ever:
Had all 4 meals of the day in the mess

Yearbook
2020

Anshul Sambher : Shubhanker sir! Aapke saath jitne bhi memories banaaye hain kaafi yaad aayengi. Mech Toli ke charche hon ya lab main jitne bhi experiments hamne first year se kare hain sab yaad rahega. Kuch na kuch karke hamne machine design ka project kar hi liya 😊 Aapki dedication aur commitment har ek kaam main hamaare liye ek inspiration ki tarah hai sir. I am sure aage bhi LEK main bhi aap sabko impress aur inspire karte rahoge. All the best for the future and stay in touch!!

Rahul Agrawal : Seth ji. We surely have a very different opinion on what the curriculum(courses) offered :P. But at the same time, I am positive you're great at those 'non-core' (:p) things you do. Loads of memories together, manpro project se pehle rinku bhaiya se pseudo-ladai :P, TGIF, 'that' 5th sem laxmi outing, MM wala project lol, Machine design to name a few. Jab PM ban jao, to is dost ke liye thodi fuding nikalwa dena research ke liye :P. Tab tak feel free to drop by in Palo Alto free time ho to xD. Have fun, and aaunga Mumbai kabhi, to milte hai fir, gullu me, paneer amristari and chicken lasagna ke saath :) .

Kushagra Kacholia : Sirr, surely fitting everything in just 700 characters is an insult to our journey together. From revising stuff before exams 5 times in 2016 to 20 in 2020, I have terribly failed in my sincere attempt to joke you out of taking every single mark so seriously. The walls of H16 canteen, The J, Gullu, Laxmi, countless bars and Carter's are forever burdened with the stories of broken hearts and amazing accomplishments. The Doon trip will always be my favorite, for I was close to my home :) Here's to the days spent at 278, H2 and the nights spent at Marine Drive! Wishing all the very best to one of the most sincere, hardworking, kind and awesome gentleman. Bas bhul na jana, Sethji!

Sushant Kumar Pal : To have a mentor like you in the very initial days of our Insti life, we were just lucky. Thanks mentor for giving us support and having our back in those tough days of first year. Thanks for giving us confidence and also for all the mentor treats that u never denied :p

In my insti life, Never have I Ever:

Had all 4 meals of the day in the mess

Yearbook
2020

Nirbhay Wadiwala : BHAIYAJI *** nahi karte ... Seriously you and neel have been the only friends right from the first month of college to the last day of college and I swear I wouldn't want it any different ... From all the food excursions to weird life fundas you've shared I'm glad I met you...While we've already done 3 trips I guess we should do a couple more before we accept that we're not undergrads anymoreHope to see you succeed and become the man you've always striven to be :)

Mrunmayi Mungekar : SMS! And I am sad I can't add three zzzs to your name, kinda already long enough :P (But I am pretty sure, the zzz habit I leave you with, would die hard :P) To long (veryyyy) interview nights to being half asleep in thermo tutorials! Also ordering food almost everyday! Thanks for introducing me to Hit&Run Shawarmas! And also our love for Hindi songs which probably drove SN super crazy! You are probably one of the most sorted person I have met! And ofcourse, itna jyada machana (Acads and well, everywhere else) koi aapse seekhe! :P Stay the same! And please, I still await the long overdue treat from my soon-to-be-rich cos! :-P

Kumar Saunack : I heard about you indirectly from so many people and I truthfully did expect someone a bit more haughty. It was a pleasant surprise on being proved wrong. I'll say Saurav did do one incorrect thing during college and that was talk less to his neighbours. Might've been different if you didn't switch hostels from 6 to 2 though :p

Akash Sharma : Hey shubhankar jaldi aao naa civil department 😂😂...Kaafi sahi machaya aapne .Har time available ..Always ready to discuss anything . ..Tenure was way fun & challenging with you . chalo milte rahenge Mumbai me 😊😊.All the best for the future bro ♥

In my insti life, Never have I Ever:
Had all 4 meals of the day in the mess

Yearbook
2020

Harshita Masand : Hello Shubhankar sir :P Remember the ELP interviews? 😊

Sahil Saiyad : Arre sethji kya machaya aapne insti aa k. All those night outs in 1st year are some of the most pleasant memories of my insti life. Kya simple life thi first year me until I went and did that banana ride. Lol. Kaafi wheelchair me ghumaya aapne. Even though we lived in the same wing from our 2nd year we fell out of touch for some reason. We all fell out of touch. I hope it was because each one of us found a new and interesting place to grow with a stronger sense of belonging. I hope we all get to go on a trip that we kept on delaying in our first year which then never happened. P.S : Will call you if I ever end up in jail. Just giving you a heads up.

Anumay Ashish : Sir, mtlb frankly starting mein I had never thought that we would be such close friends, but then ME102 ke assignments, ED ke sunday sessions, Solid mechanics ke exams and struggle and many more such stuff kind of really built our bond(Specially Solid 2 ke woh night out wale mid sems). Respect for your vision sir, and really look forward to meet you soon(who probably would be the next big thing and i wish all the best for it). Anyways, it has been a great journey sir, and I will remember it always.

Aman Mishra : Sethji _/_ I always had great respect for your all-roundedness and humility. Then, you once told me about the time you participated in inter-iit despite being diagnosed dengue. Uske baad to bas yehi bol sakta hu- ek hi to dil hai yaar, kitni baar jeetoge? It was a pleasure knowing you Sethji, cheers to our convener times and SMP tenure. All the very best for your future endeavours and stay in touch :)

In my insti life, Never have I Ever:
Had all 4 meals of the day in the mess

Yearbook
2020

Vihang Wagh : Seth ji! Team ke overachiever. Tera focused aur ambitious approach muzhe bahut accha lagta hai. I haven't seen another personality as engineered for success as yours. Ek aur baar 50 free karna hai aapke saath (hopefully is baar mai hara du). Bas baaki machate rehena. Jab CEO ban jaao koi company ka tab treat de do.

Kumar Saurav : Firstly, given so much blame on me for not being in my room, I plead guilty. You can be heard walking from miles away and given that nights were silent, I suppose you weren't roaming out. I guess I could have talked to you when you were in the mess, but that event's rarer than a blue moon. Regardless, your stories are legends (esp. that last Inter IIT 🏊♂️🏊♂️), and I have never met a more soft-spoken person than you, ever. The subgroup name is more than an apt indication of the amount of respect I have for you. And yes, that name was very creative.

Sarthak Nijhawan : Never'd the slightest clue that we'd bond so closely over our tenure. Honeslty man, never imagined we'd be so compatible with each other; & for me, doubt if any1 ever will be. U're the one man I can rely upon blindly at all times & u know it. Thanks to u & MM for making my final yr so memorable & exhilarating. Me even declaring that u'll accomplish great feats in ur life will qualify it, it'll happen all the same. Always stay that confident, authentic, jovial personality u're. It's u who define ur achievements, not otherwise. Can't wait to see for what lies ahead for us. Ab flat dhund lete h pehle :P. Aur ye prom ka kab band karoge bhai tum dono :P - u guys've rubbed this off on DGM also :P.

In my insti life, Never have I Ever:

Had all 4 meals of the day in the mess

Yearbook
2020

Nishant Jannu : Subway on tue/sat, KFC on wed/fri, gullu filled in on the gaps- Our friendship grew out of our hatred for mess food. You helped me overcome my fear of missing cribs - In the most Indian parent way possible, yelling at me to suck it up and catch that bus. The precision planning and execution it took us to time that McD order that day, is something I'm still proud of, probably can go on our resumes? We've had our marine drive night-outs as well- not always well timed, esp with an overnight no piss-break journey awaiting. Tbh I was surprised we convinced you to dance at Navya's sangeet- but you made sure we actually 'practiced' during practice & saved us from embarrassment.

Viral Shah : Sethjiii !!! You are definitely a role model for many people. No matter what you take up, excel seems the only option possible for you. I toh wonder how can a person achieve so much in life. you are truly an inspiration for many. be it acads or swimming you always have the upper hand. your down to earth attitude makes everyone wanna be with you. Talks with you have always stimulated my mind. Leaving these talks thanks to all the parties that we had, specifically the last one where you were the biggest support for me. All the best bolke shabdo ka matlab nai girana chahunga mai. Bas yaad rakhna hume jahan bhi jao

Rishika Gupta : I vividly remember the day I first met you on the day of sports orientation. I first thought you guys were crazy roaming around insti late night, singing songs, and jumping on the road. Later did I realize how poised and courteous you are. Never got enough chance to interact with you during the convener tenure. But the handing over was lit and so was the drive back to insti XD Thanks for being chivalrous and checking up the next day. It was my pleasure working with you in the SMP Program. Wish you all the luck to achieve even greater heights in the years to come. :D

In my insti life, Never have I Ever:
Had all 4 meals of the day in the mess

Yearbook
2020

Animesh Singhal : Sir aapke jaise toofaan toh kisi ne nahi machaya hoga insti mein. Stellar performances everywhere! From acads to sports to PORs to inters and what not? It was a pleasure knowing you! Thanks for helping me with some last minute insights during the placements! That trampoline part in R-City was one hell of an experience! Let's plan one more such outing when everyone is back in town! But this time, we'll go to an adult trampoline park instead of a children's play room XD

Adarsh Kumar : The first time I met you was in LC 201 when you were so chilled out for your interviews on Day 1 of interns. I don't think you remember that. From then to the day we were called to the mathematics DFM. I am really sorry for that xD. I don't think you or any insti student has ever faced anything at that magnitude ever before :P Was really fun knowing you. Really like the way you are so chilled out, smiling and calm at all times. Thank you for helping us so many times, I hope we won't disappoint you guys!! All the best for your future <3

Aman Singhal : Yo Shubhankar! Kota ke liye to definitely note banta hi hai bhai. Tu 11th end me mera neighbour banke aaya tha tabse leke JEE tak bohot maze kiye hain apan ne. Tera phone leke kitni movies dekhi hai maine. Tere saath discussion karke accha lagta tha humesha. I am sure tu kaafi machayega aage bhi. Good luck!

Arjav Shah : SIR! You're someone I have highest levels of respect for! I am so glad we met during the early days of insti life. This also meant that I had someone to look up to throughout and also for the times to come. Every conversation with you was so enriching, motivating and a lot of times, very intimidating xD! I am in complete awe of how perfect you are at everything! I'd forever cherish that Surat trip, H2 canteen discussions, case prep, mock interviews and of course, the time we've had in SMP! Hoping that our paths cross again and bhul mat jaana, Sir! Yours, Baba :P PS: Sloan aa jao, please! ;-)

In my insti life, Never have I Ever:

Had all 4 meals of the day in the mess

Yearbook
2020

Parag Mundhada : Hey Shubhankar, It was great knowing you via the groundwork process. I had heard great stories about you but after knowing you I can say that you are one of the most machau person in insti. Your dance was terrific :p I hope all the success in your future endeavours and keep guiding us. P.S. : DGM is a 4 AM idea that was thought together by three of us. :p

Pragun Badhan : Seth ji! The constant lab partner from the first Physics lab to the last Applied Thermo lab! Your towering achievements are an inspiration to us all. Great guy to have in the group so that you don't miss anything important for the exams or otherwise xD. All the best for your future!

Sumukh Vaidya : Sir Sethji! It was an amazing time interacting and coordinating with you in the SMP. Your time management skills are legendary really, I was blown away the way you've handled one of the heaviest PORs and your acads. I hope you succeed in your plans for a PhD (:P) after you've conquered the corporate world. All the best for your time ahead. Remember, I am always available at reasonable consultant rates :P Cheers!!!!

Cherub Kapoor : Shubhankar, you have no idea to what extent you've helped shape my life. Your hustle has always been so contagious. Itni cheezein seekhi hein aapse - I couldn't have asked for a better mentor. Thanks for all the efforts you've put on me :) I've also seen your other beautiful side through the poems you'd showed me (jo shayad bohot logon ne nahi dekhi hai). There's so much to you, big man - just know that you'll get anything and everything you'll put your mind on. Keep the energy and the optimism, ALWAYS!

Had all 4 meals of the day in the mess

Yearbook
2020

Hetvee Marviya : Pehli baar aapko mein inter iit mein hi mili thi and tabse I was like how can a person be able to handle every tough situation so calmly. I have seen you effortlessly sort things out and bring solutions even in the worst of problems and I truly admire that. You are undoubtedly truly inspiring with the dedication you put and the things you achieve. You say you are the black sheep in your family but we would only be black dots then 😂 Thankyou for guiding me, during the intern process and now in SMP! You are always a step ahead, be it planning for life or hoarding food for Corona in hostel room :p All the best for all your future plans!

Anusha Dubey : Hi Shubhi boy! Our intern times were really fun! Will cherish all those amazing outings, fancy food, starbucks coffee and our drives from insti to office and back! It would have been really difficult to survive those intern days without you guys. I hope we have the same kinda fun after joining back at office (if all of us are joining :P) Despite of all the crisis, I admire how you guys have handled SMP! Wish we had more fun during the tenure and few more SMP outings! Wish you all the best for life ahead :D

Rishabh Raj : Hey Shubhankar! Yeah, our meetings were just restricted to the corridors of our hostel, but it was always nice. You are a real gentleman and extremely soft spoken. Really helpful and kind. Wish we had interacted more. Was always distracted when you used boss..sir..aap.. 😂 P.S. You could be recognised from miles apart by your characteristic walking sound :P. Best wishes for your future endeavours :D.

In my insti life, Never have I Ever:
Had all 4 meals of the day in the mess

Yearbook
2020

Sanit Gupta : I don't even remember how we ended up meeting for the first time but I have always had a lot of fun with you whether it was in group projects/ labs (especially the vivas) or food outings. I still remember that day freshie year main when we ditched a tut to go out to explore a bunch of food joints and bahut logon ko eventually symmetrical mountains dikhne lage the. That was some of the hardest I have ever laughed. I really admire your discipline and drive and I am positive that you're gonna be super successful. Take care and keep in touch.

Anmol Gupta : Hey Shubhankar! Most of what I knew about you was through people close to you, but then glad that we got to talk a number of times - they were few but also very interesting, and may I also add 'inspiring' at times! From almost giving me the chance to take your interview (remember, ISAA times? :P) to taking my interview in final year (lol it was indeed interesting XD), you've come a LONG way, and I've been really proud of what all you've achieved so far! I'm glad that you stood by you-know-who when it mattered the most, and it's a pity we couldn't get to interact more 1-on-1. The case group would've surely helped in it XD But nvm, we've got loads of time to catch up now! ~ ASIA Forever XD

Aditya Patoliya : Sethji!! What a man! I have always been awespired by you right from my day 1 in insti, when I met you in Lakshmi. Thank You for being a very caring mentor and a friend. Wishing you the best,always.

Nithin Kumar : Hey Shubhankar👋, We definitely started off in between all the interviews and plans but it's beautiful to see in retrospect what life had in store for us from that point. It's always a pleasure to have those little chats with you - be it the mess, LPQ💙 or all those little things with which we used to help each other out during our tenures. You always amazed me as a person, loads of respect and tons to look up to. Immense respect for the work you've done in your tenure from all that I've heard. Definitely looking forward to hear all the success ahead, stay deifically amaze. I would love to see us sharing pieces of life- living spaces ,great food and much more by all means. Cheers!🔥

In my insti life, Never have I Ever:

Had all 4 meals of the day in the mess

Yearbook
2020

Kumaresh Ramesh : O captain, my captain! Legit a godsend in Nashik (was it?) and then the AFM meets (except one, which will forever remain a mystery to me :/) I plead the fifth on the question you have but I really really love the USD 5k that I got. Cargill me pata chala that your shoes are too big to fill (literally and figuratively). All I remember from the US trip are the premium economy benefits (which was better than what a certain someone got). You are an inspiration to anyone who knows you, and I am no exception. Keep doing amazing things in life and some day, the ten of us might actually agree on a CGS6 trip. And yeah, have a safe flight, you know where the emergency doors are if you need them!

Mihir Surve : Shubhankar bhaiya, yahaa insti me seniors ko bhaiya-didi, ya sir-ma'am bulaate hai kya? Still remember that first question-answer session :p. "Kiska ISMP mentor kitna machau?" discussions weren't ever a problem for me I think xD. But seriously, your advice, your outlook and your personality in general were very inspiring for me and aapse kaafi kuch seekhne mila. I don't think though anyone in the wing is gonna leave you without another treat. Koi nai bhulne wala xD. Ab to Mumbai me hi placed ho (I think) to milte rehna! All the best for for your future endeavours! <3

Suchit Sharma : Yo Shubhankar.... Agar mene idhar saari chize list kari jinke liye mujhe aapko thank you bolna hai toh 700 kya 70000000... words cross ho jayenge, toh mein end mein ek bada sa thank you bol dunga. Aapko pata hai mein bohot sad hu ki aapke liye prom ke liye koi nahi dhundh paya and prom bhi nahi ho paya... but I wish you get a chance to have a dance with the love of your life :P. And infi treats se bhache ho aap but ab jab jab insti aaoge toh yaad se de dena :) Actually, I realise ki aapko best of luck bolne ki bhi zarurat nahi hai... Itne machau ho toh luck ka kya hi karoge. So here is as promised - Thaaaaaaaaaaaaannnnnnkkkkkkk Yooouuuuuu <3 <3 Yaad ayegi aapki bohot
