Himanshu Bishwash : We have been teammates for almost our entire stay in IIT and I must say it has been great working with you. I do believe that we planned a party long back and it is yet to happen. Let's try and make that possible. I believe PGAC 2018-19 had the best ACCs :P

Jayeshkumar Dayma : I think first time we met in ankush's room...bt after that we used to meet either in mees Or 7th floor of B-Wing...it always great to talk with u on any topic either politics or technical...u have really very good knowledge other than study...i never forgot that night on terrace...it was really great fun with music & harmonica...i really missed that we couldn't go to harry becoz of COVID...All the best for ur future...

Mufassir Khan : What a person!! So mature!!! So practical!!! Brother it takes a lot to talk the way you do.. I just used to think that such people must be existing and then I met you .. Sir.. NITIE interview prep krwa do 🤔

Jaideep Singh : I had the best two years of my life and was lucky enough to share it with you. I believe the maturity and stability you brought with yourself really taught us a lot. And you're harmonica is unbelievable.

Vartika Singh : You are the one who knows how to be there for people, how to stand with them. I've seen you standing with your friends when they have hard time, you are the one who understands why someone did what they did, you are the one who believes in people and accept the fact that we aren't perfect and we make mistakes. You're honest enough to tell us that we did the wrong thing, and supporting enough to stand with us to bear the consequences of our misdeeds. You made me believe in things I never could have believed. Thank you for being in my life. Stay <3

Mayur Zadbuke : Hey Suyog, we spend a very little time together but it was enough to call you as my good friend. Hope we will be in touch in future..

Aman Srivastav : Our time together feels like a cosine curve. In starting there was memories then something phase out then again in second year things come up 'high'. A great person to have discussion on anything and a greater person for any type of trip. And a must person if you are going for BAR. Sorry for cancelling various trips. Hopefully next time we can succeed :)

Ratnesh Srivastav : People say... "First impression is the last impression.." but now i can happily say that they would probably meant it for "strangers"... Through these 2 yrs you have completely changed my thought process... you are really an amazing person who has rightly balanced his personal and professional things.. there are many take aways from you... You were always there with us during the ups and downs..! Hope our bond prevails lifelong.. all the best buddy for all the endeavour!

You were always cool when we talked with each other and I am happy that you found your match in the college. I enjoyed our time during the parties and in the Mtech Lab. Have great future ahead!!!

Sandeep Kumar P M : Hi suyog, your image that comes to my mind is: "you sitting in the mess listening to news or reading it in a mobile" . May be that's why you always come up with facts. We did a good job together in CS 725. All the best for your future 😊.
