2020

Pratyush Ragini Singh : I remember how I asked you to speak slow everytime we met in the first year, as I couldn't keep up with your too fast speech. 😂 I'm glad I was late to the Quantum physics lecture that day and ended up sitting next to you. BTW the backstory to your name is pretty cool 😊 You're a wonderful writer. You've always motivated me for writing and I'm very grateful for it 😊 And please try to bring down your forgetfulness 😂 pata chala ab meetings miss na karde exams jaise :p All the best for future and humesha machate rahe. And always stay the really cool guy you are 😊

Kavya Bhandari : Project partners forever... <3

Drish Mahnot : Too much to write tbh but a very important honourable mention for future nostalgic recaps because you're not gonna join smh. Lowkey MVP of my stay for a lot of periods
