Saman Siddiqui : Venky <3 Starting as doe eyed freshers (more me, I know :P) to turning into people I think our freshie year would be proud of, we've really come a long way. Venky, you are someone who I've always depended on, it's been almost 4 years and you've been a constant in my life. Looking forward to loads of more lunch dates <3

Rahul Agrawal : Venky bro! first year MI orgie treat me mile the, yaad hai? :P. Jab tu ham logo ki cpi ke peeche pad gaya tha, Imao!. Fir third year DRC tenure we spent a lot of time together - it was fun! Intern ke time ke insta chats(read - my emotions abt Paris :P) were legit! tera Paris me mere ghar aana and fir Sarvanna jaake tamil me waiter se discount maangna will be my single best memory of you xD xD. And fir last sem me 'tu yaha kya krrha hai' bolne wala tha tu merko? :P. Kafi maze aaye hai bro! Stay in touch and all the best :D. Mil liyo pardes me kabhi :P.

Nikunj Mohota : I could not count your skills on my fingertips during the chemistry freshmen introductory session. They kept developing as you learnt acting on positive feedback ig. Basketball, coding, dance, singing and what not. Random talks in DN, gyra, getting drunk after gyra, wing treats, Room 235 XD - the road was not a smooth ride of course. But we've both emerged as better people ig! I hope teko koi dope univ mei admission mile and you make us proud with whatever you pursue in your life. Sheegrah mulaakaat hogi :)

Mudita Rana : Venky!!! Do you remember murder on the orient express? :p hahaha, whining about chemical courses was best done with you because only you hated the profs as much as I did, if not more 😂 it's great to see the love you have for research and how you manage to do it all with such ease!! Lunch/ dinner plan bacha hai, let's hope that's checked off soon! 🌞

Yash Samriya : Venki! You are that amazingly proactive person who somehow manages soo much together. Your dedication towards research has been unparalleled especially in the 4th year! Those second-year summer chill with Saman, that "TAP" memories will be remembered! All the best for your Ph.D. bro! Stay connected! :)

Nutan Megu : Hey venky., we lost touch recently but i wana say i m so happy to hear that u r doing well and u r happy and u found some amazing people in life. its sad we couldnt catch up muchh. but i really have so many memories with u . going to bandra with alok one fine morning suddenly .. local se.. the fam trip and wat not.. always stay happy okay

Kunind Sahu : Yooo Aditya! I'm really thankful to have met such an amazing person like you! Well I met you as a PH107 TA for my batch, but as time progressed, you essentially became an amazing 'mentor' and a good friend! You're a really chill person and I still remember the treat you gave me at Mood Indigo @Gullu and were talking about your further plans, I wish you all the very best for your future endeavours, and wish you success in life :'), I certainly do hope we can meet again sometime, and the next time, I'll be the one who's treating you xD. Have fun and enjoy life ♥

Jovina Vaswani : Venky🥰 Thanks for not being annoyed at my silly doubts, and helping me so much. Your sweet and friendly nature always made me want to talk to you. I have learnt a lot from you, one thing being that we can work hard while at the same time maintain a calm and composed attitude. You have been one of those few students who actually tried to understand the courses, asked conceptual doubts, and that cheered me beyond limits. I am excited to know what you do in your research next, with your stellar mindset and grit. I will miss you.

Bhadri Narayanan R : Hi macha! If there was one person whom I could trust to hijack the lecture completely and also argue sternly with the prof, only to end up disagreeing with them, it would definitely be you :P Wonder how our group study plans always failed, but we did finally end up as team mates in that incredibly boring lab which was fun with you around and the EE101 project which I still have no idea how we completed XD Our rants in the mess about chemical were such a stress buster! Keep up with your fitness (remember you almost died in the 5k run for H2? :p) and always have your trademark eyes-closed-grin on your face :D

Anmol Gupta : Hey man I'm super glad and proud of having brought you to DN (Pratyarth still regards that as my greatest wing-achievement lol). I have to admit, our starting was indeed shaky with that sophie intro, but then thankfully things have always been uphill. I have seen you grow A LOT, especially in these last 2 years, improving on so many fronts. From those funny room-selection fights, to those discussions over all things under the sky - from a shared passion for fitness, to those occasional unhealthy cravings - it has been an amazing one for sure! Wish that Lonavala trip/house party could have worked out though - until the next one! Stay rad!

Sumitra Barhat : Yooooo...kitta roye hai na dono Freshie year me."I met her in a house party" (read it with sobo accent). Teri sari dost kaise hoti... friend of a friend of a friend of a ...aahh ditch. I still am mad because tu goa nhi chala mera sath😭. Apna Freshie year mast tha♥️. Cycle rides, TL wali nautanki. Teri jagah kisi aur ko jaga dena H2 me😂😂 Meri yearbook me likh ja samajha warna katti😭

Devyani Verma : Hello venky! Our basky sessions will be missed! It was so great knowing you and I hope we stay in touch! Can we go out w Pratyarth and Anmol once all of this is over please? I love your spirit and the causes you support with such a great energy and enthusiasm! More power to you! All the best for future :')

Vipul Ramtekkar : Hey Venky, always welcoming, smart and well read person would be just a few things to describe you! I wish we had more discussions cause the few we had were super fun! Being late to classes and exams was a normal thing for us XD! All the best for your future and I know you'll do great. Keep in touch!

Richa Agrawal : Hey Aditya! You are a really sweet guy and it has always been so nice to randomly run into you at H2 and just start talking. You are really smart and I know you'll be doing super cool research work, so stay amazing!

Aayush Anurag : Venky, from the conversations that we had, I feel your thinking has grown enormously from the Freshie year, & I love that you voice your concerns what is right thoughtfully(that cycle incident 😊). Your carefree dancing is <3 (Probably the best dancer in DN). Hats off to your dedication to research in final year. I'd always remember your “YO” while I was filling up my bottle or while brushing. All the Best for your PhD (I know tum machayoge udhar). Hope to stay in touch.

Rishabh . : Venkyyy I had the best time running into you and chatting up all those times in hostel and canteen! It was always fun to hang out with you and wish we could've done that more! Stay the awesome cool guy you are and all the best for the future and stay in touch!

Kavish Rathod : Venkyyyy!! Kya hi bolu aapke liye, DN me aaya hi aapki wajah se, I still remember how you fought for us to get us to DN. Abhi bhi yaad hai mujhe kuch bhi problem ho aapka instant reply aata tha, no matter time kya ho raha ho. Aapke bina Chemical pass karna kaafi difficult hota without your papers, notes everyything. Kudos to you on your success, last 2 sem se kaafi jyada mehnat kari hai aapne and you deserve all that you have aimed for. Undoubtedly you carried on the DN legacy very well.

Adwitiya Rao : Venkyyyyyy, you're one of the best people I know and thanks for being such a consistent performer in ICFA. If I ever need a veshti I'll reach out to you :P All the best for your future <3

Karunya Baskar : Hey Tam-Bram boi with the amazing voice. Let's go out again someday eh? We've an overdue drink from even before I left to Japan. Imma miss you dearly da. In fact imma let you in on a secret. I didn't know your name for at least two weeks after we met. Abhijith and I used to call you "chiseled jawline". Hold onto that dear chiseled smile of yours. Cheri papoma? <3
