Aryan Agal : Yo Abhro! We had limited interaction because different depts, different hostels(long distance kyunki mai 6 ka hun). Anyway met you in first year randomly at Satya/Shrvans room. Tere saath baat karne mein accha lagta hai. Trishant ka dost too. 2nd year summer mein you, me, Rajat, GPS, Simran and Satya ke saath Psych mein feel aayi. H12 food is 🔥. All the best, stay connected!

Atri Dutta : Abhro, sabka bro :p. Kitna awesomely sarcastic hai tu. Me like. Agle saal hopefully US me durga puja manayenge. I'll forever keep messaging you how Barca is no more mes que en club and how Madrid is contributing to world peace®, aur tu mujhe real ke har loss ke baad ek "are you okay bro" zarur daalna. ManU aur psg ke to ham dono milke gaali denge. Bhul mat jaana hamein.

Maitrey Gramopadhye : Bhro!! I guess insti mai sabse zyada deep conversations tere sath hi hue honge, and you're right, 2-3 lines are too less to describe our experiences. I love how we always thought of the same uncomfortable inappropriate joke :P and how we had entire conversations just in memes and references. I'll always cherish the time spent with you. Milte rehna.

Drish Mahnot : I guess you've won the battle to own Rajat but I'll win the war xD On a serious note thank you for always being so supportive. Idk why but your praise hits different and is always so uplifting. I really respect your intelligence (ek baar T Akshay ko bhi beat kiya tha __) and other than the 3rd year start jab tu mere maze le raha tha it's always been fun with you! (especially brownie night)

Gurparkash Singh : Abhrooooo! You are the weirdest person that I know of. Literally. And I love you for it. I love your "Logic over Emotions" way of life and I have always tried to incorporate some of that into my own life. You are very very easy to talk to and your advice has often helped me maintain my sanity. Your algorithmic approach to every life problem has taught me to remain calm at all times. You've probably influenced me the most during the last 4 years, so much so that kitne baar aisa hota tha ke we used to think of the same thing at the same time. Usually, these were vulgar jokes at inapt times :P. Tere saath maine bahut deep conversations kiye hai which I'll always remember. Stay weird my US Boi.

Kumar Saurav : The first thing that comes to mind is that very much quotable CPI line 😂😂. I remember saying how much I'm going to miss your quirkiness when we were going back after dinner one day. How quickly those days came running to us. You were the best of the bunch to lighten up to. It always felt good holding conversations with you, all of which turned out to be mostly monologues with your deep opinions on things, and me resting on your beanbag and eating your snacks. My sense of football tactics remain underdeveloped and I hold you responsible.

Rishabh Raj : He bhagwan! See who it is! Before you start trash talk to dis me :P, I'll quickly write something. I guess, if I hadn't become Amey's teammate in Compilers, I wouldn't have even become acquainted with you. Reason for coming 3/5 times to the other side of the wing used to be you. But you always disappointed me by sleeping 2.5/5 of the times. And then later, you would walk back to my room, bang on my door and go "Tum toh bolte the ki tum darwaza band nahi karte! :P". Such philosophies, much wow! Abhro for POTUS. I don't know if I managed to change all the perceptions that you had in the short year that we interacted, but fine. Wished you spent more time playing and working out with us! Milte ha

Sarvind Rankawat : Ok, Let me quote this first "You are the best defender in our hostel's footer field!". Tumhari football kee knowledge god hai, kaafee sikhney ko mila hai tujhsey! Mujhey abhee take nahi samajhta kee tu kaisey kisi topic mein logic ghusakey results ko explain kardeta hai and somehow it starts to make sense! I will miss those times in mess, footer field, Jahan usual stuff sey jyaada unusual discussions ho rahe hotey hein. Kaash apni tactics GC mein bhee kaam kar jaati. Amey Patil : Yo Roomie! The unique Bengali! Being thorough with every task at hand no matter how much time and resources it takes, you are one of the most slow but patient person I have ever met! Being clear about life goals and wanting, and actively pursuing it! I'll always remember our late night talks and random theories! Btw try being less gullible in US and I hope you get your dream girl! I believe that College life is not only about academics, accomplishments and good or bad memories, it's about how we get our personality and ideologies from those experiences which we are going to nurture for the rest of our lives! And I'll always be glad that our paths crossed in the most amazing time of my life!

Kumar Saunack : I think I always barged into your room by mistake. You wouldn't know, because you were always sleeping when I entered your room during the day :p
In all the games we played, you were a true team player, always coming in my way of shooting someone and sacrificing yourself for your teammates. Keep up the selfless attitude (though only when you're in my opposing team).

Sunchu Rohit : Hey man! I remember we became close during 6th sem, thanks to the Compilers Prof for grouping the tutorial problems based on the last digit of the roll no xD. All the random discussions we have had were always entertaining. I really enjoyed my time spent with you. Let me end by writing 4 - 0 ;) . All the best for your future!

Pradnesh Patil : Brooo...When I first came to the van I was always intimidated by you (akshay more ;p) but slowly we got to know each other and I knew I could always come to you with any problems in my life(irodov and krotov too ;p).From there to the amazing laxmi trips (and the audio recordings too) its been a hell of a journey.I'll never forget the marine drive trip we did and all the things we discusses ;p.Thanks for always inspiring me to do better in life and motivating me to get to where I am right now.All the best for the future and keep in touch

Vipul Ramtekkar : Abhrooo, we have known each other for quite a while now. School was fun and so was the first year with all the dinners, mini militia and movies that we saw! You are hardworking, smart and ever smiling. I wish we could meet more often. All the best for you future (mera thumbs up, remember 11th & 12th? :P) Keep in touch!

Ishan Tarunesh : Discussions with you on all kind of topics were so interesting, it's good that you have opinions on such a wide spectrum of events. Best discussions lekin philosophy ke hi the. If universal truth exists then why can't universal morality. I hope we get to settle this discussion in the future. Har baar mujhe apni team mein lene ke liye dhanyavaad defending tumhe hi dekh kar seekha hai. I really like that you do so much for friends. PS - Please watch normal animes.

Sahil Saiyad : I hope your reaction time improves. Don't go around giving random strangers your card number and otp.

Trishant Roy : Abhro! There is definitely some magic in your words. It motivates the hell out of anyone. I know you will achieve the greatest heights in life because of your hard work. Your hardworking nature has been big inspiration for me. Thank you for all the unconditional help! The time spent with you has always been so awesome. Cheers to the infi house parties, pandal hopping and exams (XD) that we have done together! Thanks to our sisters and nani that I got to meet you 13 years ago <3 We ought to keep playing cricket in your corridor whenever I come at your house!
