Yearbook
2020

Sudarsanan Rajasekaran : Haven't seen more humble and down to earth person. Always having a friendly smile and ready to help and support. We met late but really enjoyed the time we spent together. Thanks a lot for helping me for preparations for GRE and toefl, don't know what would happened if you weren't there. All the tamil movie trips and going together for Tamil Manram was really awesome. I was really fortunate to have someone to talk in tamil in the class. So sincere and hardworking.. should also try to relax more I guess :) All the best.. Microsoft mein bhi jaa kar macha dena..

Abhinav Jain : Yo! I am not yet sure which country you belong to... ah... Philippines? This one banter since the first year cannot be forgotten even today. You and Hari have been my relief point so many times I cannot thank you enough for that. All the best for Microsoft, let's stay in touch!!!

V S Harikrishna : Hey Anirudh! You have been putting up with my rambling for 4 years (even when we got separate rooms!). I still remember the first time we spoke on something apart from tutorial problems and ED homeworks during Ganesh Chaturthi two months after we started. You have always been a no nonsense guy while I was the most chatty person I have known till then that it was hard for me to imagine us getting to the point we are right now. You have never failed to bring something new to my eyes no matter what you did and I got to learn a lot from you. Although we have to part on such an abrupt note I still hope we get to meet again in future. And yes I will definitely remain in touch. Godspeedmyfriend
