Aprajita Shukla : Rupal, I admit that I may not have been very expressive when it comes to you. We have had our differences, but what is worthy of appreciating is that how we managed to stick together. We may not have been together always. But in case of need, you have always been there. You are very strong. You don't need validation from anyone, I've seen you making your way through every difficulty! I wish to learn this skill from you. I can not thank you enough for what you had done for me when I was hospitalized, never did I feel homesick because you brought home to me. :) You have shown me, how a true friend should be. Love ♥
