**Pujan Biswas :** One of the very few people who has genuine interest in the work they are doing. I never got your Maths stuff dude :P But you never never bragged about it. Thanks for locating Rahul when he locked me in the room :P And also for handling him so well. Also, surprisingly our music taste matched on many occasions XD Thankyou, the most, for pretty deep and engrossing discussions in the H7 room man. Your laptop is sick tho, even more the work that you do in it :P Dude, most people know your introv nature but I've seen the danker version :P Thankyou for being such a nice friend and even nicer person. Please don't forget me and let's meet for an outing soon. Yours sincerely, Bisso!
