If you could pack up a bunch of things from the institute to keep with you forever, what will those be?

That amazing lakeside view during Springtime, Coffee shack wali Maggi, and that amazing sunlight filtering through trees in the morning!

Yearbook
2020

Veerupaksh Singla : Samriya broo! Apna pehla interaction shayad RC plane ke time hua tha! Fir DIC! Aur fir ab to design project ke chakkar me kaafi ho gaya. Saathe me HS ke baad apne apne grp ke reports edit karna, bhaag ke print karana. BTP ka mutual rona sunna sunana! First name se to bulaya hi nahi shayad ek dusre ko kabhi 😂😂 Aur Singla, Bol Samriya hi chalta raha.

Atharva Jaipurkar : Samriya broo! A true tech and aeromodelling enthusiast♥ Bhai 1st yr ke plans yaad hai? Tu, mai aur maalik, about making an emergency chute for planes! Tu kitna hardworking hai re, saw that in the work you did for you design project! Leaps and bounds ahead of others! Baba, aur aap ke sath outing me infi maza aya tha, H12 ki roof pe jake life ke baare me conversations bhai♥ Finally Powerlifting GC me bhi bahot feel aai thi! It was great that you participated! Performed really well for someone doing it for the first time👏👏 I really hope ki tu continue karega workout karna😊 Stay Blessed ♥

Adithya Iyer : I think i first remember you carrying everyone through ED, then H9 ofc. H9 me mess ke time the puns on countries of EU is probably the pinnacle of nerdiness humanity has reached, vo din toh mai kabhi nahi bhoolne wala. Stay in touch dude!

Saman Siddiqui : Yash, You are a gem of a person. Sach mei. From that first year when you introduced yourself as the ED God, to the years in Chemical where you were my Meta partner, you've always been there. I've always known that I could approach you with any problem and I knew that you would always stand by me. You're one of the strongest and most dependable people that I have ever met and you deserve all the happiness in the world. You're so kind and nice and I'm so glad to have known you. I remember you were one of the few people who called to wish me years ago and I'm always going to remember how sweet that was. Don't stop texting me! I know I'm bad at texting, but I always miss you! <3

Yearbook
2020

Abhishek Rawat : Yash my Class Partner.....I am Really gonna miss those rants in between lectures..... I seriously wanted you all to witness one last great act of mine where we would laugh about the misfortunes we faced in life together(Chemical). Tu S2 mei thha bach gaya xD.....Dont worry it seems the adult life is gonna suck more and we will be having more of our rants about life. We will surely remain in touch and you will remain one of the greatest ppl I have met.

Pushan Bal : For the first six months, I pronounced your surname as 'Samariya' and you never corrected me! Then on the previous night of our PH108 endsem, you came to discuss something in my room, and somehow, I locked you out with your book inside. God, I had almost thought you would never ever talk to me again. But we met again in the minors and it was as if nothing had changed. You have constantly motivated me to do better in minors. Without you, I would probably have done much worse. You know how to multitask and you are prepared for all possible contingencies. I really respect you for that and hope that we will stay in touch.

Bhishma Dedhia : Yo my man Samriya! Apna trajectory in insti has been very similar. Freshie year tech events mein milte rehte the followed by convener tenure and then as co-managers in the council. Third year council meets mein kaam kam karte the and arbit bakar and bakchodhi jyaada pelte the xD. I am going to miss you man! Ek last time lets hit the gym together when we come back <3 All the best for an amazing future and keep in touch <3

Abhinav Jain : The most capable co-manager in the tech council, I really enjoyed working with you! As a fellow aero enthusiast, I was really overjoyed by the way you took the aeromodelling club to new heights. Madh Islands and tech council meets mein ki bakar will always be remembered, let's stay in touch in the future as well :-)

Yearbook
2020

Swarali Ghodkhande : Areyyy Sir!! Infi maze kiye apke sath lab me toh. Thanks for being the most patient guy in the lab group. And sorry for being annoying at times :P Having said that, you are a very disciplined, determined, and helpful person. All the best for your future. Stay in touch <3

Shobhna Misra : Hey! The UG Nom tenure wouldn't have fun (or sometimes even bearable!) without you. Thank you very much for that. You handled the Aero Club quite well and were unfazed by the difficulties you faced. That was quite admirable really. And likewise, there is a lot that one can learn from you too! The memories we made shall be cherished forever. (You forgot the random lukkha we did at TL sometimes :P) All the best to you for your future, and stay in touch! :D

Yashvardhan Didwania : Samriya bhail, your motivation and commitment to the your club was extremely inspiring for me, it's flying higher than ever before. From first meeting in NSO squash to finally in the gym, we've surely shared a large part of our insti life. I will never forget our post-party at Sunny lol. Council meets me kafi entertainment krwaya yaar tune. Lastly, from one Yash to another, I wish you all the success in your life. Apna yehi saath aur sampark bana rahe <3

Mahale Chaitanya Rahul : One of the most disciplined and diligent people I know ,BUT, I've also been a witness to "bro, aaj jo hua wo insti me kisiko bhi nahi pata chalna chahiye!" XD. Tera secret safe rahega bhai! The summers were an ordeal for all of us, thanks for the support making it a little easier. Keep growing and enjoy while creating more such "kisiko pata na chale" scenarios. All the best for the future and stay in touch!

Aryan Agal : Samriya bhai! We clicked on being enthu about our stuff in 2nd year. Pata nhi tujhe kitni baar aero ka samjha though XD sorry for that. Tu slowly but surely consult boi ban gaya! All the best for your future, stay connected, stay enthu! PS: Take life little less seriously, mujhse inspiration le

Puneet Kaur : Heyy! Talked quite a lot to you during the convener tenure. Your enthu for aero club was amazing! 😊 You're a really sincere and a hard-working person. Kuch na kuch karta rehta hai. And almost har profile mein machaya hai. You always have something to share 🥰 kaafi polite and friendly hai tu. Hamesha class mein dhyaan kaise deta tha tu I have no clue 😊 machate rehna hamesha and keep sending whatever you draw ♥ bahut mast hote hai! Stay in touch! 😊

Owais Chunawala : You were one of my first friends in the insti. We did so many activities together. XLR8, RC Plane and attended so many events of technical council together. We made the drone on our own in our first sem itself. That was the start of our tech journey I feel. You also BCed from Meta to Chemical :p. Then we became conveners in the tech council. So many fun memories from that year. You became the sole manager of Aero Club next. You managed the club so beautifully, single handedly, hat's off to you for that. Your curiosity and sophistication is something that I'll always be in awe of. We'll definitely do something together in future. All the best, Yash!

Thangellapally Aman : One of the most "get it done" person I've met in insti, and you were rightfully the best manager the club could have! It was great working with you year!

Naman Goyal : Hey Samriya!! Sab pta chalta rehta tha aapke baare me through your lab group partners 😊. You are such a motivated and hardworking person that I am sure that you will achieve great heights in life. I think ab mujhe to Arnav ko nhi jhelna padega, onus is now on you, so best of luck with that 😊.

Ankit Neema : Sir sir!! We have been through a lot in all those chem labs, but undoubtedly I will cherish the awkward CTRL vivas 😂 All the best for the future and be in touch bhai 😊

Vikrant Nagpure : Bhai! Tera dedication, seriousness and sincerity alag level pe h! Stay same man! Sahi me tujhse sikhne ko mila tenure me. Jo bhi interaction hua hamare bich me was amazing and fun. Late night council walks (Main building terrace) xD and informal ITC trips (Madh Island) :D yaad rahenge. You handled so many unwanted pains in your tenure calmly. Sorry for last minute ideas from my side which I could have given on the first place. :D Stay in touch! :)

Ashi Gupta : Hi yash, apan dono ke roll no. ke last 2 digit same h 😂... Jokes apart.... Itna saara kaam karte ho sir, Wo bhi much before deadline 🙏... Much respect for you! Best of luck... Stay in touch 😊

Athul Arun Nambolan : Hey Samriya, You really one of the most responsible guys in my team. It was always good have your point of view on things. We had our own set of disagreements. But hopefully it only improved us as individuals. Couldn't hang out with you and aero-modelling guys more. All the best dude !

Bhadri Narayanan R : Yash! I never had to worry about anything when I was in your team XD I knew you'd keep the motivation levels up and get us to the finish line. Thanks a ton for helping with the million assignments over the years and lending me pen (sometimes paper.. oh and water too!) for almost all the time we've known each other :D I'm sure we've learnt a lot by bombing each other with questions but I'm yet to decipher your handwriting :p Keep up your spirit and have fun :)

Pujan Biswas : First year ke tuts tumhare bina adhure they sir. Trust me 😊 Tum tuts karke aane waale kuch bacchon mai se ek they, I can't believe ki aisa ho bhi sakta hai. Woh tera IITG->IITB waali story aaj bhi yaad hai. Keep up your focus and good work and ofcourse enthu, jitna BC karne mai dikhaya tha, Chemical leke galti kardiya kya? Yours, Bisso!

Rushabh Vora : Yo Samriya! Design project bros! I am really happy ki we were in the same group, maximum kaam to tu hi dekh leta tha 🙏. Bhai all those sleepless nights and presentations jisme hum random bluff karte and profs ki random chizo pe agree karte the 😂 were awesome!! You are really very dedicated and hardworking person 🙌. All the best for your future bro♥

Abbey Zachariah George : It was my pleasure to have got the chance to work with you. Learned a lot from you. Let me be frank, I wouldn't say I liked the Aeromodelling Club in my first and second years, but you totally redefined the club. I wish I were a freshie when you were the manager and could enjoy all those fantastic events. There is no way I am going to forget the meets (Inter-IIT wale :P), the fights due to opposing views, the trip. Remembering those moments will always be my pleasure. Stay in touch!!

Arnav Dewan : So..... Apparently we have reached the end or is it a new beginning? God from just knowing you as one of the other branch changers to having a vacation at my place and to going to Surat, it has been just an amazing ride! I know thodu irritating hoon but that's why itna fun hoon! Bro kaafi hardworking hai and someone I can always count on..... We are going to be joining and working together in our job and what not! I have cried a lot in front of you and will continue to do so. Baaki eh..... you know.....

Manan Agarwal : Broo, I truly admire your deep focus and dedication behind every work that you do. It is just so inspiring! Waise, I never really eat to the brim, thodi jagah humesha rehti hai (aur desserts ke liye to anytym...plz agli baar thodi aur chocolates lana) There are so many fond memories that come to mind...Matheran, food (incl. tera Mess ke liye call krna, which I'm already missing soo muchh), tera har concept ko achhe se samjhana, midsems ke 2 week pehle hi 2 baar revise kr lena and many more! And, sure, I'd definitely continue with my Sunday runs and hope you too enjoy your Gymming! Have a great time ahead aur machaate raho!

Aditya Venkatraman : I will never forget the excited look on your face when you were discussing drag coefficient after a tiring night of clubbing sitting in the front seat of the cab xD I would have totally tanked the EE101 project without a pro like you tbh. I really have no idea how you managed to do literally everything in a short span of time, 2 interns in your sophie year summer and placement stuff and your BTP in your 7th sem and that too really. Really admire the effort you put into everything (including shastri's course wow). Good luck for your Ph.D as well!

Yearbook
2020

Arjav Shah : Samriyaaa! Never imagined we'll get so close. From the two innocent souls first discussing research at Enthuse to some serious discussions about everything (BTP? xD) under the sun, we've indeed come a very long way! You wear every inch of that CEO personality & man, you're so meticulous, serious (gets too much at times :P) about everything! Sbx & Lakeside on March 10 '20 will always be special! Had the best trips with you all around, Surat, also Sameer hill (gaye ho kya? :P), Chaayos (Hug? xD)! Can't thank you enough for always being there. I'm glad u got your money back xD & continue getting high on sleep. Trust me, you're AMAZING & will go a VERY long way. Tons of LOVE, Baba <3

Rohan Ajay Singh : Yo Yash! XLR8 Mentor, TechFest Manager and then Aeromodelling Club secy....teeno time aapne bohot machaaya!!! Aur bohot saare treats diye (Grand Ones every time) :P **The only XLR8 mentor who gave a treat at Gullu** You are the most organized person I have met in the institute, well versed in technical/managerial issues and astonishingly, the most soft spoken one. RC plane ke time night-outs at TL (6 planes in a day + infinite ranting about others not working properly...LoL), early morning flying sessions....likhte likhte poora work report likh dunga...xD Kaafi BT khaai hai aapne hamaari, bhool chook maaf karna pls :) BTW... passing out treat abhi bhi pending hai, yaad se de dena pls! :P

Anish Abhijit Kulkarni : Yo! You were the first senior I interacted with and it's been wonderful knowing you these past years. I will dearly miss the grand treats you gave (passing out ka pending hai ;p). Have great memories of your Aeromodelling club tenure and thanks for being so considerate always. Will miss running into you in H9 and All the best for your future! Macha doge aap!

Anirudh Mittal : Hey Samariya! one of the few seniors I am comfortable on second name basis :) Kaafi fun tha time at ITC and H9 with you! Aapke jaise discipline and deidcation toh insti main kaafi kam logo ka hota hain and I have probably learnt few of it staying in touch with you. :D I am confident that apan aapke graduation ke baad bhi milte rahenge and aapse fundae lete rahoga! <3 #GeetinGoodAtSenti
