Yearbook  
2020

**Sudarsanan Rajasekaran :** From the first day as roommates till the final year it was really a wonderful journey with you. Haven't seen more cool and practical person. Thanks for all infinite help and suggestions. It was really fun being your roommate. So adjusting and helpful.. and also your planning and management skills are awesome. Sorry I couldn't attend much of your GPLs... The night outs and last day study for the exams were really unforgettable... Never have seen you becoming angry or lose your cool... Your ideas of keeping plants at room was really awesome... All the best... Aage bhi machate rahna...

**Ganesh Chelluboyina :** Orey Pavan! Can't forget those IC summers with you. Though not the best of times, all the moments we shared lightened up the mood and gave me great memories. I remember when we went to SoBo to get some stuff, not realizing it was Sunday... instead of returning, we made an impromptu trip around the whole city on foot 🤪 And then the bike ride to Vihar, trying out multiple shots and angles to get a decent pic. You got busy in later years, as you cs guys always do. Hope to see you again soon, all the best!

**Rahul chundururu :** Hey Pavan B, fun, exploring and adventurous, that's what I think of you and more. The chat we had in dept building in 7th sem, beside the stairs, when you said things are to be eventually alright. Thank you for that, that was really helpful. And also for the countless photographs which u are always willing to take, the goa trip, project works and all. The SSL project presentation after a night out lol, I think it didn't work properly before the TAs, so we just hand waved something. All too memorable. Keep being the fun person you are and all the best in future. Also, let's keep in touch.

**Sachin Tak :** Bro!!
