

GURU VAMSI POLICHARLA

Physics

Yearbook
2020

Kesha Tamakuwala : Hi Guruuu! I hope you remember me! We almost never met after the tenure but the time spent together at EO was super fun for me. It was unbelievable how you always had the wittiest one liners for every conversation. You seemed to be a very sorted insaan and i hope you still are. Thank you for addressing all the noob doubts i used to bug you with. Good luck for the times ahead and I hope you get to do everything that you want to !

Nandan Prince : Vamsiiiiii, chal na kuch karte hai :P :P :P

Sumukh Vaidya : 'Oye Vamsi, aj kiske sath socialise karega tere SoBO circle me? " Was my favourite question to ask you really . All the best dude, machana!!!

Aditya Venkatraman : I s2g this doesn't allow me to post more than once. What a scam bro. It's like the notes app here (remember? only likes, no comments xD) I love you man; your aesthetic sense, your vibe, travelling with you, random sesh plans, the way you helped me through some really really tough times, giving me reassurances during apping season, for constantly questioning my life choices in 2nd and 3rd year ahaha, for housing me at times (xD) and so many more things I can't fit in 700 words ugh. My insti life wouldn't be the same without you and you'll always be really close to my heart. See you in blr, we'll put one massive scene bob.
