

HRITIK MEHTA

Mechanical Engineering

Ahsan Aslam : Hey man, you are one person I really wished I had met in the first year. It took a project in the third year for that to happen and I won't forget how fast you cooked up the presentation. I was impressed by your editing skills then that I was not surprised to hear that you ran a meme page. I will never forget that night before that project where you rose up to the occasion with all your ideas and enthusiasm, and treated us to guitar and pizza. I know you have faced a lot here and still you keep a smiling face, which you have earned my respect for. You have a wide range of skills and is fun to talk to. I am grateful for all the help and I hope you find your niche in life and hope I can be helpful in that.

Umang Chhawchharia : Bhai you are the most talented and smart people I have come across. Grasping power itna tez hai tera ki kya batau. You are always ready to try new things go on trips give us treats. Tere saath sachme inhi maza aaya. I always tried to motivate you and aage bhi karta rahunga pakka. Apne saare karname ache se yaad hai aur har ek memory golden hai. Ek baat ka yakeen tha thi ki kuch bhi ho jaaye tu humesha saath rahega. We will definitely keep in touch bro :)
