Atri Dutta : Dude, im gonna miss seeing you about in the hostel, always with your earphones on :P. Also, probably the only time ill concede this, but one direction does have some good songs 🤔. Machate rehna!

Mahale Chaitanya Rahul : Dhokleeee! Ghar pe bohot khus hoga tu :P. Fasa diya tha Baki logone muze Tere saath summers me, but honestly I couldn't have asked for a better roommate! Your eccentric mind made you the best fit for my PR co. I'll miss talking in Marathi with you and handing out corrections (cause siddhu ko correct karna bohot badi baat hai :P). May you thrive and find your jiggi soon. Stay in touch and let me know when you're treating me to another cheesecake 😊

Pushan Bal : From being the uptight recluse I vaguely knew in class 8 to possibly my personal therapist, you sure have come a long way. I can't believe that we didn't speak a word to each other in our first year. I am glad that one day, one of us, no idea who, decided to talk to the other. I have had some of the most intriguing conversations of my life with you. I hate debating you because you smoke me like anything. Thank you for just being there onii chan. I hope I will get many many more chances to spoil countless new shows for you. PS. Chaolaena >>>>>>>>> Rowaelin and the second 'h' in your name is worthless.

Aayushi Baheti : Mr. Grammar Nazi! Firstly, thanks for introducing me to Marvel. I love you for that! Just so you know, Vision sucks :P. Also, I will never forget that even though I saved a seat for you, you chose to sit beside her, giving me that sorry look. Having said that, you are one of the sweetest yet weirdest people I came across. Stay in touch hamesha. And stop ignoring me in public, please!

Shubham Punjabi : SARC se lekar HAM club tak, pura second year saath mein nikala apan ne. I will always be grateful for those sleek DSLR tips during alumination 😊. Definitely one of the most intellectual guy I came across in insti! Let's catch up soon.

Ritik Bilala : Mehta ji, You are a bank of witty replies. Working with you taught me many things including some English words xD. SAARC ke treasure hunt ke answers jan ne ke liye bahut pareshan kiya apko maine. dude!!! Best of luck for your career and life .

Saman Siddiqui : Siddharth, Yeh loh sir, join kar liya :P I don't know how we got to talking in the 3rd year, but I remember thinking, I really like this guy. You exude so much calmness and strength. You're such a brilliant guy and I'm going to miss hanging out with you! Please stay in touch!! <3

Harsh Vazirani : I went from finding you snarky and annoying to dumping my psychological sewage on you. I know for sure, I'd have lost my mind during placements if not for our chats just before. You have a weird sense of humor I'm still getting used to.

Soham De : Impressions: Calm soft spoken good boy person. Had fun during Insight Chied Ed interviews together. Sad that our plans of being flatmates at Bangalore failed due to your location given being far from mine but will come on weekends to take the free beers that AbInbev will be giving you :p Good luck bhai and stay in touch <3 P.S i like marvel too and 1D somewhat xD

Ayushraj Mehrotra : I want to write a lot of things, but I will start by saying that I have seriously not met a single person jo itna zyada deeply involved hai MCU-DCEU me :P Pop culture se leke random witty discussions tak, kaafi seekha and relate kiya hai apse. Koi bhi random issue ho, you were just a message away, and always willing to help. Ideation and vocabulary to gawwd hai hi aapki! Bas do baat aur bolunga: (i) Alumination ke website content ke liye aapko mujhe thoda kam pain dena chahiye tha :P (ii) You still haven't convinced me yet why I should start watching Star-Wars :P

Abhilash Wankar : Siddhuuuu... ! Car to my tanker💚. Everytime when we used to ideate, most of your ideas were way out of my capabilities and sometimes impractical but then you were very considerate.🙏. That scary night of the weeping boy is still a mystery to us😭. I will never forget your betrayal of going to swim alone😓. Thanks a lot I owe you a big one for helping me out with interview prep♥. I will miss those kajukatli and khandvi more rather than missing you. Anyway hope to see you soon. Stay the same ♥ P.S - pls forgive me for any grammatical mistakes ! 😊

Sigireddi Yamuna Devi : Yoooo Siddhuuuu!!! You are the worst 🙄🙄🙄. Hate youuuu!!😘😘😘😘

Varun Sule : Hey Siddharth, I'd only heard high praise about you from Sharma and Punjabi, and thankfully I got the chance to meet you and work with you. Just share some more of that creativity and mind-boggling ideas with me, and my life will set. Never doubt yourself man, you're awesome and you know it. Stay in touch!

Khidir Usama Abdul Karim : For the socially inept guy you pretend to be, you certainly have a knack for generating a continuous stream of brilliant publicity ideas. From the passive aggressive guy to our tussle over the storyline, have seen different shades of you and it has been nothing less than an honour to work with you. Really cannot believe that you stayed so many days in H16 with us. Pulling those contorted, painful (rd. constipated) looks to giving me the finger for every joke, thanks for bearing all my mistakes and tantrums throughout our tenure and maybe even after. Muffu may be giving me a chance as his best friend but everyone knows the good “books” you really want to get into.

Vittesh Arora : Hey Siddharth! You are the most wierdest :P and creative person I have met. I still couldn't figure out whether you ignore people intentionally or but its always fun talking to you. I was amazed when you gave around 20+ ideas during the SARCasm groundwork though some of them were too ambitious that they couldn't be implemented (wese Panda and Handa had already warned me about it that you give ideas which are hard to implement XD). And how can I forget about your writing skills its god level. Forgive me agar is post me kuch mistake ho to :p. Stay in touch and keep coming up with great ideas.. oh I mean great implementable ideas.

Ayush Ankit Singh : Heyo! Pehle hi grammatical error k liye mafi mang raha hun🙏. Its hard to imagine PR without you. You are the person who always use to bring me that single detail or alignment error in any portal. Apart from work, all those marvel and TV series discussions were so much fun. And i loved your book recommendations (looking forward for some more in future 🍷).

Mahajan Devavrat Shailesh : I perceived you as a genius who was disinterested in learning because it was too easy for you. Later realized that this was true :P but that's not the full story. You are also one of the most helpful persons out there (watching you patiently listening to Shreyans's bullshit made me realize this) Had fun with you in Hyderabad. Hope to catch up soon

Harshit Handa : Yo weirdo 😄, tune infi borr kiya he mujhe insti me 😂. But the best thing is tu humesha baat karne ke liye available hota tha ♥, with a condition ki tu insti me ho 😄, jo ki rare hota tha 😂. But kuch bhi bolo bhai tera bina tenure me entertainment nahi ho pata 😂. Tere haggi jokes and super creative ideas ke liye infi respect he 🙌. Baki infi helpful he tu bhai ♥, resume making, placement / gd prep sabke liye tu humesha available rehta tha ♥. Insti wali Diwali yaad rahegi, jab tune ghar pe invite kiya tha ♥. Apna nashik trip to feel maxx tha hi 😄. Tera aur wanky ka car, tanker wala combo 😄, and PR cos ke sath love triangle 😄 lifetime yaad rahega ♥. Baki aage hoke yaad kar liya kar.

Golu . : Hiyo, Nemo! Silent-killer or silent-carer? I think both! You kill people with your words and care for them through your actions. I know how you withstand people with patience and simultaneously planning their murders in your head. Jokes apart, you are one of the most talented and clean-hearted persons I've ever met. Somehow you know what you love doing, and you always take time out for those activities. I have literally learned a lot from you and had it not been for SARC, I would have lost a gem of a person. I still think I haven't understood you completely, and we have a long way to go in our friendship. I promise to be your 'rain' whenever you feel low. I love you 3000.
