Mohd Abid Khan : May be those words are not invented yet that I explain how important you are for me. you are the one who tolerate me and my tantrum even at 2 am. We shared N number of memories like, I can't forget how you met Nishat's mom and took her to hostel. shayad Mai kabhi us cheez ka shukriya ada nahi kar sakta ya shayad zarurat hi nahi hai. I will keep that sketch you made of mine ,forever. you were a good classmate and labmate too. You carry goodheart. your kindness, humbleness, helping nature every character of yours always inspire me. Thank you for everything that you were with me in my up and downs in the institute. laga tha west Bengal se rishta khatam par tu aur masa hanesha touch .me rahenge.♥

Prasad Raju : Nandini, you are one person I have seen growing up with time and achieving success. I loved your artistry. I came to know about your singing recently and loved it too. There are many talented persons in our class (apart from acads) who were once busy with their life and now by the time we are slowly knowing about each other it's time to leave. Anyway it's the beginning of good friendship from now onwards. Your birthday night was most memorable. The trek, trip to hyderabad(I made u walk so loong..😂) are worth remembering. Thanks for helping me out whenever I asked. Thanks for giving good poses to my clicks😂. Stay in touch. Be happy forever. All the best.

David Rajkhowa : Magic juice wala raat se start hua tha hamara dosti...from that point of my life i found a good friend, my support in every aspect...we spend some quality time together ... marine drive, Sagar, sunny, special chai, silver beach, homara lab...everywhere in last 1 year we were together....Nandini you are really a good person, true friend whom I can trust blindly....keep singing and abhi vi bohot kuch korna baaki hein....gonna miss you...

Frankly speaking, Your first impression on me was not that good, I thought you are very rude and aggressive, but when I started knowing you better , you turned out quite opposite. Hehe...
