**Mayank Sultania** : Sala itna pareshan kiya hai tune mujhe and Rohit ko ki kya hi kehne... Teri padhai khatam nhi hoti thi na kabhi but sabko pata tha ki Top kaun karega apne group! Gandroid was the best thing jo maine aur Rohit ne tere liye banaya tha and yaad rakhna apna last moment trips baki hai abhi bhi..

**Rishika Gupta** : Helllooo Sir 🙏🙏 How can anyone know the answer to all the fucking random questions our professors always ask!? You are always up with an answer 🤖😅 Thanks for providing all the links and notes everytime just before the day of exam 😊 Acha hua design project khatam ho gaya warna tere lambe presentations sunne padte har lab 🤖👩♀ Please kam padha karrrrr 🥺 P.S. You owe me a treat too

**Rohit Kumar Gupta** : From being the most active among 12 of us to becoming the greatest maggu - Mr. Binayak Sahu aka Single Variable aka Multi Variable and aur bhi bahut naam hain (kyun mayank). Last moment par help karne wala banda... natak bahut karta hain but finally bata hi deta hain :P. I am missing meri, teri and mayank ki mandali... kya udaya hum logo ne ek dusre ka... BTW roll no. XYZ kaise bhul sakta hu (kyun mayank)... apna 60-40 toh yaad hi hoga... sabse jyada movies theatre mein maine tere saath hi dekhi hain... Mohammad ali road jana tha yaar :( but ek baar toh jayenge hi and apni ek duo trip bhi pending hain (wo bhi 60-40 ki rakhenge :P)

**Kireeti Akkunuri** : Never expected we'd be paired up in so many things in these 4 years (and counting)! Obviously I can't fit everything here because of the infinite memories which we shared. Though initially a bit distant, we got to know each other a lot and we can finally set most of our differences aside and enjoy the workplace! You're easily the best chemical engineer in our batch, and you are most deserving of whatever accolade comes your way, which I assume there won't be a shortage of. Whatever career progression you choose, I hope you like it and achieve success. And it's okay, me watching you fight with Mayank is entertainment enough for me to forget the traumatic experience on Sameer hill xD

You're made of something else entirely and I'm so sure that you're going to do amazing things! Thanks for being so nice and helping out even though you didn't need to ♥ Let me know if I can ever return the favour 😊
