2020

**Kumar Ashutosh :** Man!! You're very helpful and ever-smiling. We did not interact much in sophie year. It all started with CV project and then no looking back. Your doubts during class are difficult to answer (given my attention in the class :P ) Thoda chill kia kar :P and enjoy. You are very concerned about the 0.25 year that you lost but "it all even's out in the end" :P Take care and Stanford me machana!!!!

**Bhishma Dedhia :** Jo bhi bolu woh kam hoga. I cannot imagine past 3 years in insti without you. BC karke elec mein aaye and peeche hi pad gaye ek dusre ke. Mark my words when I say you are going to be worth a billion dollars. You have that lethal combination of hardwork, perfection and raw intelligence. Khelte-muskuraate, sab projects saath mein kiye and built so many kickass things. I'll cherish the countless nights spent debugging. You have been my pillar of strength throughout insti life and I owe you half of my degree. Stanford is so lucky to have you and I am going to jump at every chance to visit you. Bahut paper publish karne hai saath mein! Pranil ko lekar pizza hut ko vaapas lootne chalte hai kabhi :p

**Swadha Sanghvi :** Yo Sarthak!!! We became friends just by reacting to each other's post. I will miss our random discussions about everything from Modi to research. It's been amazing knowing you. I'll keep sending you food recommendations from India and I know Stanford CS bht hectic hoga but stay in touch

**Deepak Gopalan :** You were the first person I talked to in insti after my roomie! I never knew back then that we'd move together to a different department, and now a different university! I have always enjoyed the discussions we had about everything in the world: from politics to history, from acads to food, from love-life to the scarcity of it, and from future ke plans to counseling sessions. Not to mention the snacks you get from home that I eat during those discussions :) See you soon buddy!

**Vineet Kotariya** : Sarthak bro! We were the EE labs' dream duo!!! Kya compliment karte thei yaar ek dusre ko lab mai. Tere bina mai kya karta! Kitna jyada hardworking aur bhai tere excel/ppt skills \_/\\_. Din-raat itna kaam karta ki class mai hamesha tujhe neend hi aati.. Tere jitna lectures mai poori insti mai koi nahi soya hoga!! Infi photos liye maine..Bhai room pe so leta XD I'll miss our long discussions and chats. We had so much fun! Sadly H18 mai jyada time saath mai nahi thei. IITB ke toppers mai se ek aur abhi Stanford, bhai dusro ke liye bhi kuch chhod de XD. Wish you all the best bhai, infi papers publish karna, stay in touch and keep smiling as always! P.S. Ab toh treat de de :p

**Pranil Joshi** : Consuull! You truly are one of the most remarkable people I've met in insti. You work really, really hard. And you ALWAYS aim for the stars in whatever you do. It's a pleasure to hear you passionately talk about your courses/research/projects (the times when we do understand what you're saying xD xD). I love your amazing attention to detail and presentability (refer to hamaara EDL ka report/slides/video). I wanted to tell you to be less competitive, but I'm pretty sure competition was what brought out the best in you. You've also always been a really awesome friend. We've both had each other's backs at some of our really low points. Hoping to have a lot more of Consul in my life!

**Parthasarathi Khirwadkar** : Yo Consuol! Pizza-addict and a bibliophile! I remember we first met in H16 when you came to ask some doubt to Amit. Since then we have stuck together in every course project, making our resumes 50% identical 🤪. You have been my go-to guy for clearing my concepts, and I have always admired your dedication to every task that you take. Although, you are a pain in the a\$\$ when it comes to parameter tuning 😬. With your awesome report writing skills and my debugging skills, we form a great team! 😊 I had a lot of fun listening to Lonely Island with you and discussing everything from acads to pop culture! I hope that we will team up again multiple times in future. Till then, West Coast zindabad 😊

**Sudhanshu Meena** : Umeed sab badhiya. First year mei toh wing tere room mei hi rehti thi during exam time. Baki toh padhte raho , maje karo.👍
