**Sudarsanan Rajasekaran :** Yo Pranav. The inifinite time we spent in lab discussing code and debugging.. it was really nice. You were so chill and composed.. not getting tensed even during pressure situations. Enjoyed those summer ke testing. Tensorflow tere se hi pehli baar suna tha. Remember those days when we stayed at Hari's room and then fir bhaga diye gaye the :) It was always nice working with you. All the best.. aage bhi machate rahna...

**Deep Karkhanis :** Bro !!! Tujhe jitna thanks bolu kam hai. Saare group projects tune aur sriram ne hi sambhale hai. Assignments main bhi aap hi sahara the mera. Even last tak coding test aur interview prep main help ki tune. Projects ke piche kitne night outs maare honge bhai apan ne. But kaam toh mostly tune hi kiya hoga. Main toh sirf report banata tha. Presentation ke pehle tu sabko code samjhata tha taaki prof ko lage sabne kiya hai lol. God hai bhai tu. Jo main 4 ghante main karu woh to 10 min main kar de. Par bhai jo kaam start kiya hai khatam toh kiya kar. GRE de diya, applications bhi kar hi deta. Anyway, tu jaha jaayega, machayega. Atb and stay in touch.
