From our coincidental teaming for ETHIndia...to organizing I_Hack (and winning it the next year of course! :P)...from the scenes of u sleeping peacefully in the corner couch of the office...to all the fabulous nightouts that we have had during hackathons...it has been a glorious journey with u!! U have always been a great friend and the most machaxxxx hackathon partner! Lagte ho bhole bhaale .... but ho ek number ke chupe rustam!! Aise hi hamesha khush raho [jaise Elec ka 3rd yr khatam hone ke bad se ho]...see u soon

Veerupaksh Singla : Bhai Aakash! Ab dinner plans khud bana ke hi katayega kaun? Ek baar to jaana tha bhai, y u do dis 🥺. Har road trip pe rone waale gaane kaun chalayega? Bohra Ankit Narendra : Yooo Sir!! No doubt tu wing mein bahot kam rehta tha but tune alag level machaya hai bhai!! Apne woh rone wale discussion, "secret" conversations and mess mein baatein and your way of eating😂 are some special moments. I admire your hardwork and dedication to the things you commit to work on. I guess there is no one in insti who can match your blockchain knowledge. Tujh jitne hackathons pata nahi kisne jeete honge...every 2nd yaa 3rd week koi doosri city mein hackathon ke liye chala jaata tha bhai. I'll miss our talks! Agle saal placements bhi aise hi macha dena All the Best. Stay in touch!

Harsh Jain : Co anchor aur apni tech & life discussion. Specially 15/16 kae 7th floor walli. Will always disturb you for technical advice. Bangalore mae milna, deep Philosophical & innovation walli discussion Krna. Tu bohot badha bnega & startup kre to btana 😊. Kaffi jyada humble and good. Milte rhna, aapn aur chess bhi khelenge sath mae.

Mohanish Verma : To be honest, their are only two people in our wingies to whom I tell everything is you and ankit. Salute for listening my so many complains and dil se thanks for putting me again and again on track. Well I want to say a lot but definitely will on my next senti 2021 because in last sem we both will be travelling to highway to hell😎😎!!!

Devank Rajvanshi : You are one of the most down to earth senior I have ever met. We first met in WnCC blockchains session where you were frustrated by the freshie sitting among the crowd constantly asking doubts. Aisa enthu chadaaya blockchain ka aapne aur Tezan ne ki, seedhe SOC par ruka ;)) Pata nahi kaise you still considered me for working under you in I-Hack. All those roadside talkings and usme Tezan ke maze lena to valuable teeps and treeks, you always considered me more than just a junior. For your secret stalkers jo yearbook mai aapko stalk karne waale, yeh banda MIT mai macha kar aaya tha. Abhi bhi kuch to macha hee rahe hoge isliye jyaada nahi pakaata. All the best for your future !!!

Kosuri Sandeep : Yo akash!! My co!! Never had I ever worked with such a cool & pragmatic person like you. There were times I had troubled you a lot. I always had a special respect for you. Learned a lot from you. Thanks for guiding me all through the tenure. Milte rahenge!

Rishika Gupta : Heyyy Akash! I was very intimidated by you when I first saw you after class asking some hifi CS doubts. And then met you in WNCC. Little did I know you will become one of the most important people in my insti life. Your hard work, determination and laser focus is just inspiring. 💛 I am glad things didn't turn sour between us as I thought they would. 🏯 Those late night walks, talks in CS department and the park will remain close to my heart. I remember congratulating for your intern and infinite Hackathons you have won. I can never forget Baarish and Breathless memories 😍 You know, I know what's best for you every time. So next time se trust kar lena 😛 and stay in touch

Arsh Akhtar Ansari : My ecell counterpart!! Dude it was so relieving to always talk to you. You are a very humble person and kaafi helpful. Apne pains during tenure kitne similar hote the 😎. Your dedication for blockchain is very inspirational for me. Aise hi machaate rehna and be in touch always

Namya Bagree : I can't see you, who are you, tall fellow, the one who keeps winning hackathons without giving treats! Laser tag games were infi fun, and so was MI where we got to know so many funny stories about you! Anyway, can't see who I'm writing for so it'd seem weird if I write about more experiences😛

Sumitra Barhat : Likhna nhi aa raha But important hai tu...we have a connection yaar. Samajhte hai...batana achha lagta...share karna 😘❤ i think share karne me apne sare hangouts aa jate😎
